Total number registered (including stillbirths), 160, against 163 for the year 1909.

Percentage to our present population, about 16 1-2 in 1,000.

REARRANGING, INDEXING AND PRESERVING DOCUMENTS, FRANCHISES, ETC.

The sum of \$100 granted for above purpose in regard to the valuable papers in the care of the Selectmen was not used and remains in the treasury untouched.

It was no doubt a puzzling matter to determine just what should be the scope and extent of the undertaking, and no definite plan seemed to be forthcoming. There is a mass of material relating to the two active street railway companies alone, and when the subject was turned over to the Clerk in December it seemed out of the question to attempt to transcribe in a satisfactory manner the railroad papers above referred to before the close of our official year. The sentiment of the town would appear to favor some method of safeguarding these valuable documents. Having looked into the matter carefully I feel assured that the only thorough way of doing this work is to have a complete copy made of all said papers (typewritten preferred), and then rearrange, chronologically, the originals, and page and index the same after the manner common in registries of deeds. The originals and the copy might then be bound in separate volumes and their safety practically assured.

My impression is that this can be all done, if sufficient time be allowed, for \$100, and if the town shall choose to reappropriate that sum I have no doubt that the job can be successfully handled the coming year.

INTOXICATING LIQUORS

No Licenses of any Class for the sale of Intoxicating Liquors issued in Natick during the past year.

DOGS

Whole number of Licenses issued up to Dec. 1, 1910, 469; Males, 421, Females, 46, and 2 Breeders' Licenses at \$50 each. Amount of money turned over to the County Treasurer, \$1,078.20, and this, less the necessary percentage retained by the County, will be refunded to the town.

Respectfully submitted,

JAMES McMANUS.

Town Clerk.

I have examined the financial account of the Town Clerk relating to Dog Licenses for the year 1910-11, and find the same to be correct.

REPORT OF THE LIBRARIAN

To the Trustees of the Morse Institute :

GENTLEMEN :

The thirty-eighth annual report covering the twelve months from February first, 1909, to February first, 1910, is herewith presented.

It is gratifying to note that the year has been one of progression, and that the citizens of the town are availing themselves more and more of their opportunities to suggest and obtain books.

The Duplicate Pay Collection begun in March with five volumes has met with the general approval of the patrons of the library. By this method it is possible to have a greater number of novels at less expense, as on an average, each duplicate pays for two copies. As the larger portion of fiction is now published at a net price, without it we could not supply as many as we have in the past.

A small amount of music has been added to that division, which is very favorably regarded. The circulation increases steadily, and especially since a typewritten catalogue was placed outside the desk.

Our venture last year of loaning the back numbers of the current volumes of the periodicals as they came off the reading-room tables has been so satisfactory that almost every magazine is in use until it is bound. Before this, unless one could read them here, they had to wait seven months, or more, until they were back from the bindery.

The standard of the reference room has been maintained with the usual additions. Also there has been a noticeable increase in the use of the books by the High School pupils.

Our membership in the Massachusetts Library Art Club has entitled us to the following sets of photographs for exhibition : —

Italian Fountains.

Wells Cathedral.

Famous pictures.

Food and Game Fishes of New York.

Florence.

Southern Coast of England.

Japanese Color Prints.

Rise of Architecture in Italy.

Venice.

Medic; Women in France, England and Spain.

Eighteenth Century Color Prints.

Corot.

Art for the Nursery.

Rulers of Italy.

The Young People's Library met with a great loss in April by the resignation of Miss Clara H. Randall, who had been librarian of this department ever since its opening ten years ago. She had exceptional qualifications for this position, for besides an intimate knowledge of the books, she had the ability to interest and guide the children in their selections, and to influence them in many other ways for their betterment.

Miss Rena L. Haggett, appointed in her place, has made a good beginning, doing well for the ten months she has been in charge, and has made the rooms very attractive.

As usual, books have been sent to Felchville and North Natick schools, being transported free of charge through the kindness of Mr. John B. Leamy. Also to West Natick, Mr. William P.

Johnson carrying them back and forth for his carfare. We have found that these books serve a double purpose, as many are taken home for other members of the family to read, thus reaching those who otherwise might not have access to them.

While the rooms are filled to their utmost capacity with readers, the number of cards drawn by the children for the last year and a half has decreased, with a constant decrease in circulation of books for home use.

Professor McDonald of Brown University in his address at New Bedford on the "Public Library and the Public School," after stating the many ways by which a library can be of assistance to the public school, and that all progressive educators approve of the policy of linking the public library to the school, made this statement as one of his concluding remarks: "The public library co-operating with the public school contributes to the education of the community. They are joint educational agencies, working together for a common end—the enrichment of social efficiency. They do not duplicate, but supplement one another. Their tasks bring them into association, not into competition. The library will keep prominently in mind the needs of teachers and pupils, while the schools on their part will send their teachers and pupils to the library and cultivate the reading habit in the home, that one sure basis of all culture in adults as well as in children."

Herman Harrell Horne of New York University says that "To exclude literature and think only the thoughts of the moment, suggested only by the prosaic routine of earning one's living, is to drop below the line of human privilege and become but little above the creatures whose eyes see only the earth."

The reading rooms have never been used more than at the present time. A new periodical case has just been installed, which will accommodate the larger number of magazines, thereby clearing the tables and making it a more simple matter to find the one wanted.

All the inside woodwork of the building has been much improved, both in appearance and durability, by a coat of shellac, bringing out the grain of the wood, rendering it more impervious to dampness and dust.

Also the doors at the front have been replaced by a large single door, which is fully appreciated by patrons who have had to struggle with the old ones. With the words, "Public Library" on the glass, there will be no further cause for complaint from strangers as to where the town library is, for many have taken the name "Morse Institute" to indicate a school.

Another bookcase has been built in the basement to hold such material as we have no room for upstairs.

We have received many gifts, which it is impossible to acknowledge otherwise than by the list found in the appendix, but which are not wholly valuable in themselves, but also for the interest which their giving signifies.

The Boston Public Library has aided us not a little in extending to us the privilege of inter-library loans when necessary.

By this, anyone desiring a book from the city library may have the same, providing it is a volume which they circulate, by paying the express charges each way, after having made application here.

As heretofore, the united efforts of trustees, assistants and janitor, are responsible for whatever degree of success has been attained during the year.

Respectfully submitted,

MIRA R. PARTRIDGE,

Librarian.

Sealer Weights and Measures Report

To the Honorable Board of Selectmen of Town of Natick, Mass.

GENTLEMEN:

I herewith present you with my first annual report of the Weight and Measures Department, of the town of Natick, for the fiscal year ending Dec. 31, 1910.

I wish to thank the town officials, the manufacturers and merchants, for the courteous manner in which I have been received by all, in the discharge of my duties!

As they are becoming more numerous, involving more work and time, and a larger number of reinspections, it seems that it would require a permanent inspector to accomplish that which is demanded by the State Commissioners of Weights and Measures.

I would suggest that your Honorable Board take into consideration the advisability of installing a set of scales at South Natick, as there are no Public Scales there at the present time.

I would also recommend that all platform scales of 5,000 lbs., or over, should be tested at least twice a year.

There was some addition to the working equipment the past year, but more are needed.

	Scaled	Adjusted	Condemned	Total
Platform Scales over 5,000 lbs. .	12	1	1	13
Platform Scales under 5,000 lbs.,	68	6	1	75
Computing Scales	21	2	3	26
All other Scales	159	16	4	179
Weights	726	28	2	756
Dry Measures	127		3	130
Wet Measures	266		2	268
Yard Sticks	40			40
Milk Jars	3,163		26	3,189
Totals	4,582	53	42	4,676
Test Weighing in Stores				235
Milk Teams Inspected				22
Pedlar and Junk Dealers Inspected				27
Coal Weighing				10
Coal Inspected in Bulk				4
Berry Basket Measured				12
Whole Number Tested				4,986
Total				4,986

Notified 15 dealers of the law regarding sale of bread.

Visited eight places in accordance with the law and was refused permission to seal scales.

WORKING EQUIPMENT

STANDARD WEIGHTS AND MEASURES.

Large Balance and Cabinet.

Weights, 50, 25, 20, 10, 5, lbs. (Nickel).

Weights, 4, 2, 1, lbs., 8, 4, 2, 1, 1-4, 4-8, 1-16, ounces (Brass).

1, Brass Yard Measure.

Dry Measure, 16, 8, 4, 2, 1, Qts. (Iron).

Wet Measures, 4, 2, 1 qt℥.; 1, 1-2 pints, 1 gill (Iron).

WORKING SET WEIGHTS AND MEASURES.

1, Case Working Scales, Fairbanks No. 3.

Weights (Iron) 10, 50 lbs.

Weights (Brass) in case, 4, 2, 1, lbs., 8, 4, 2, 1, 1-4, 1-8, 1-16, ozs.

Dry Measures (Wood), 16, 8, 4, 2, 1, Qts.

Wet Measures (Copper), 4, 2, 1, Qts., 1-2, Pts., 1, Gill.

1, 1 lb. Hanger Weight (Nickel).

1, Glass Graduate.

1, Brass Measuring Rule.

1, Yard Measure.

1, Copper Funnel.

Tools in Wooden Case: 1 Portable Drill, 1 Clamp, 1 Monkey Wrench, 1 Pocket Level, 1 Inspection Lamp, 1 Large Flat File, 1 Triangle File, 1 Large Screw Driver, 1 Small Screw Driver, 3 Scale Wrenches, 1 Hammer, 1 Pair Pliers, 9 Steel Numbers (1-2 inch), 7 Steel Numbers (1-8 inch), 1-8 inch Condemned Die, 1 1-2 inch Steel Seal, 3 Steel Punches, 2 Rubber Stamps, 2 lbs., Plugging Lead.

Respectfully Yours

WM. A. HANNA,
Sealer of Weights and Measures.

REPORT OF CHIEF OF POLICE

To the Honorable Board of Selectmen,

GENTLEMEN:

In accordance with my duties as Chief of Police I submit the following report for the year ending Jan. 31, 1911: —

ARRESTS

	Males	Females	Total
Number in February	22	1	23
“ “ March	22		22
“ “ April	35	1	36
“ “ May	36		36
“ “ June	36		36

MISCELLANEOUS REPORT

Amount of Property stolen	\$2,000
Amount of Property recovered	\$1,967
Accidents	9
Doors found opened	72
Defective sidewalks	8
Fire Alarms	4
Defects in gas pipes	3
Defects in water pipes	7
Dead Bodies cared for	1
Lost Children cared for	5
Sick and Disabled cared for	20
Street Licenses	7
Bicycles cared for and returned	31
All Lights found out, reported	

IN GENERAL

The entire number of arrests in the year were 459, of these 451 were males, and 8 females; 278 were residents, 181 were non-residents; 424 were adults, 35 were minors.

The hours of labor are as follows:—

Hiram J. Brown, 7 a. m. to 6 p. m.; Geo. M. Foster, 12 noon to 11 p. m.; James B. Sweeney, 8 p. m. to 6 a. m.; John H. Riley, 6 p. m. to 4 a. m.; Edward J. Murphy 6 p. m. to 4 a. m.; William B. Hogan, 6 p. m. to 4 a. m.

REMARKS

In suppressing the illegal sale of Liquor I would say that I had issued 12 warrants and found liquor in three places, but not having the necessary evidence I could not convict; the remaining warrants I returned to the court. I spent from this appropriation \$59.00 in all.

The sum of \$200.00 was added to the Police appropriation to install a heating plant, and the same was done, which is giving general satisfaction.

Our unpaid bills amount to \$442.26, and can be accounted for in this manner. There were bills amounting to \$143.34 more than the amount of \$375.00 appropriated for back bills of last year. In addition to this there were bills amounting to \$195.75 for special police to patrol the fire district, so called, and was ordered by the Selectmen. It has been the custom of taking the salary of the extra Sunday officer, amounting to \$58.50 out of the appropriation for the suppression of illegal sale of liquor, but this year it has been taken out of the regular appropriation.

There is also a shortage of one day for each officer in the amount appropriated for salaries, amounting to \$13.75 these amounts would make a total of \$411.34 and would reduce our unpaid bills to \$30.92.

CONCLUSIONS

In concluding my report I wish to thank the Honorable Board of Selectmen, Judge Henry C. Mulligan, and Town Counsel, Michael F. Kennedy, for the kind co-operation which they have extended to me in performance of the duties of this office. I also wish to thank the officers of this department for the faithful performance of their duties for the past year.

Respectfully submitted,

HIRAM J. BROWN,

Chief of Police.

Natick, Mass., February 1, 1911.

REPORT OF THE TREE WARDEN

The Tree Warden herewith submits his annual report for the year ending Jan. 31, 1911.

The work has been of the usual character, about fifty trees were planted and a number of trees had to be trimmed up to allow free passage for teaming. Several weeks were spent in removing dead branches, and a few large dead trees had to be removed.

No injury was done to any of the street trees by insects, but the elm beetles were very numerous and the trees will have to be sprayed again next year. The trees have suffered a great deal owing to the unusually severe droughts we have had for two successive years, and it is to be hoped that we may have a more favorable season next summer.

Respectfully submitted,

HENRY S. HUNNEWELL,

Tree Warden.

REPORT ON GYPSY AND BROWN TAIL MOTHS

The local commissioner herewith presents his annual report or the year ending Jan 31, 1911.

No change of importance has taken place since the last report, the residential part of the town is practically free from these pests and no colonies of importance have been discovered in the wood lots.

An unfavorable wind brought a large number of brown tail moths into the town, and we are liable to have some trouble with them for a while, until they are carried north by the prevailing summer winds.

The nests are easily seen and private individuals can help the work by cutting them off their fruit trees and burning the nests.

The conditions in the northern part of the town near Nonesuch Pond remain about the same, unfortunately the United States Government who has sprayed several miles of roadside in this district, will do so no longer owing to a change of policy, and the State, owing to lack of funds will be unable to help us by spraying in this district as they have done before.

These changes will increase the amount of work for the town in this dangerous locality for the coming year. The wood lots in other parts of the town are not in bad condition, and we have only this constantly increasing danger from the north to fight against.

Respectfully submitted,

HENRY S. HUNNEWELL,

Local Commissioner.

For the suppression of the Gypsy and Brown Tail moths.

REPORT OF THE PARK COMMISSIONERS

Your commissioners herewith submit their sixth annual report for the year ending Jan. 31, 1911.

LINCOLN PARK

This small triangular piece of land is now completed, the surface has been put down to grass, and as many trees and shrubs have been planted as the limited space allowed. A very untidy spot has become neat and attractive entirely by the generosity of private individuals.

THE COOLIDGE PLAY GROUND

This play ground is in good order and is a valuable adjunct to the town, being almost constantly in use. It is to be hoped that the northern and western parts of the town may be provided with play grounds before many years.

WASHBURN SQUARE

This small park corresponds very nearly to Lincoln Park and they both help to make the approach to the town attractive and a pleasing contrast to the former conditions.

DUG POND

The unexpected appreciation by the public of the bathing privileges, made necessary quite extensive additions to the bathing enclosures.

The accommodations now about double the size seem to be sufficient, and there was no cause for complaint, except very occasionally during the extreme heat of the summer.

No accidents of importance, or forest fires, occurred during the season, and the bathing was enjoyed by hundreds of men and boys during the entire summer.

The services of a watchman were necessary for the greater part of the year, and considering the large area of land to care for, the grounds have been kept very clean, and the success of this park has been most gratifying.

COOLIDGE PARK

This wooded hill has fortunately been free from fires and insect pests, and the trees are in good condition.

HUNNEWELL PLAY GROUND

The play ground has been well used by the boys and children, and extra swings have been provided for the use of the smaller children.

OLD TOWN PARK

The introduction of water has been again of great use, and the grass and shrubberies have been kept in good order during a second year of drought. Unfortunately some repairs had to be made to the dam, which injured the appearance of the Park for many weeks.

Respectfully submitted,

HENRY S. HUNNEWELL,

TIMOTHY DONOVAN,

JAMES E. COOPER,

Park Commissioners.

REPORT OF THE BOARD OF HEALTH

We submit the following report for the year ending Jan. 31, 1911. The Board organized for work March 11, 1910. Dr. Lawrence was elected Chairman, and Mr. Adams, Secretary.

The Board decided to hold meetings the first and third Tuesday each month at some central place. We were fortunate in securing the Overseers of the Poor room for these meetings, thus saving rent.

Nuisances increase every year, and the Board finds plenty to do. With some people anything sanitary is a farce, and it is almost impossible to get them to follow the rules of health. State and towns have become more rigid each year, adding to our work, but protecting the people.

Some eight months ago we submitted local plumbing rules to the State Board for approval. These rules were finally returned to us, and a copy of the rules compiled by the State Board submitted for our approval, Feb. 4, 1911. There were many points in dispute, and as the State officers required over a year to formulate rules, and these rules did not appeal to the town plumbers, we have not appointed a plumbing inspector. We have spent much time, and had the points in dispute settled by law, so we are now in a position to appoint an inspector and protect the interests of all in a satisfactory manner.

There are constant complaints from our garbage collectors of people giving away their garbage. As these men pay for the right to collect garbage they must be protected, and we must warn all offenders. Our town has been fortunate in this respect, for there is no other place in the State where it does not cost to have the garbage removed. No person has any right to give or receive garbage, and all offenders are liable to the law.

We have had less quarantine work than in former years, only seventeen cases of scarlet fever, two of diphtheria, and eight of typhoid fever. This record is pleasant to all, and we hope it may continue.

Pegan Brook has always been a source of trouble and expense. After comparing the cost of cleaning with the cost of piping, there was but one course to take, and we believe all future work done on this brook ought to be permanent. From a healthy standpoint it certainly is a success, and the work ought to continue a little each year, until the brook is thoroughly covered and drained.

We hope the sewer will be extended to the end of Harrison street. At present it goes half way, and serves but three families, while a short extension to the end of the street would take in one hundred and sixty more people of an element needing all the sanitary protection it is possible for us to give. We have granted all the time possible to sewer abutters, and we feel we must proceed by law to carry out the vote of the town, if all applications are not filed with Mr. Hallinan by April 1, 1911. Only in extreme conditions will we grant further time, and we hope all will comply with the law and vote of the town promptly and save future trouble. We feel Mr. Manchester has helped the cause of health by draining the land around the Wilson School,—a condition condemned by us long ago,—and certainly one that required attention.

The provision inspector has found plenty to do, and his work is most important to the people, if he is honest in his calling. As far as we know he has done his work promptly and satisfactorily.

Those exposed to smallpox and cholera were quarantined for public protection, but did not contract or give either disease. One townsman was bitten by a mad dog and was offered the proper treatment; and all dogs were ordered muzzled. A few animals developed rabies and were disposed of, otherwise no harm was done.

We return quite a balance from our appropriation due to bills in dispute. Ordinarily the local board pay all bills, and ask reimbursement from the town or State, as the case demands. As a few hundred dollars were involved, and there was a question of liability, and those liable were in dispute, we thought it wise to defer payment until the question of liability was placed.

SUPERINTENDENT'S REPORT

To the Sewer Commissioners of Natick,

GENTLEMEN :

I herewith respectfully present to you the fifteenth annual report of the Sewer Department of Natick.

APPROPRIATIONS

For extension	\$2,0000.00
---------------	-------------

The following streets were sewered :—

Jefferson street	162 feet
South Main street	613 “
Bennett street	260 “
Hunter's Hill	233 “
Highland Hill	269 “

Total extension to Jan. 1st, 1911, was 1,528 feet. A table giving details of the same will be found on another page of this report.

Total number of miles of pipe laid from 6 to 30 inches, including brick sewers, 13 miles, 2,177 feet.

HOUSE CONNECTIONS

There were 42 houses connected with the system the past year, making the total number of connections to Jan. 1, 1911, 1,013. Of these 991 are in operation, 855 are paying by metered rates, and 136 are paying by scheduled rates.

FLUSHING

The system was flushed in July, and was found to be, from a sanitary standpoint, in very good condition.

EXTENSIONS

The system was extended the past year 1,528 feet. Of that amount 613 feet were constructed on South Main street, from Curve to Bennett, which was a very difficult undertaking, as the cut was deep and we encountered large quantities of water and quicksand. The work was done in July, as we felt that the ground would be dry, and the difficulty of taking care of the water would be avoided. Considerable ledge was also found in the trench, which added to the expense, which was much larger than we anticipated. After completing the work we made a very careful inspection of the same in regard to leakage and found that the work was perfectly tight. As the leakage in the system has cost the town considerable money we were careful in making tight joints.

DRAINS

At the annual meeting the town appropriated \$750 for drains. Of this amount \$600 was to be used on Pegan Brook from North avenue to the land of W. W. Williams, and \$150 on the drain north of Harvard street, the work to be done by the Sewer Department.

On opening the drain north of Harvard street, we found a line of 24-inch pipe was laid regardless of grades, the same being 14 inches higher at the outlet than it was at the inlet, and there was 20 inches of mud in it, allowing about four inches of space for the water to get into the pipe.

After receiving grades we found that the largest pipe we could lay to give the proper flow was a 10-inch pipe, and as that would not carry all the water from that district we were obliged to lay two lines of 10-inch iron pipe, so as to be absolutely sure that there would be no danger of their being crushed by teams passing over them, as the pipe was laid 10 inches from the surface of the ground, and the land that they ran through was a private way and may at some future time become a public street. We built two manholes, reconstructed one catch-basin, laid 160 feet of 10-inch iron pipe, the total cost being \$327.04, less \$57.20 allowed for 80 feet of 24-inch pipe removed from the drain, making the net cost \$262.84, or an overdraw of \$112.84, caused by the substituting of iron for Akron pipe as we had first intended.

PEGAN BROOK

In constructing Pegan Brook from the land of W. W. Williams to North avenue the grade was very light. As we could not disturb the pipe at the outlet where it empties into the bed of the B. & A. R. R. we were obliged to lay our pipe at the very lightest possible grade.

One manhole was constructed and one catch-basin. The bottom of the culvert running through North avenue was concreted; 348 feet of 24-inch pipe was laid, with cemented joints. The total cost was \$572.26 appropriation, \$600, leaving an unexpended balance of \$27.26.

HARVARD SCHOOL DRAIN

About the first of June your Board received notice from the Selectmen to construct a pipe drain through the Harvard street school yard, as the conditions were such as to be injurious to the health of the children attending that school.

After carefully looking into the condition by the Board of Commissioners, they concluded that an 18-inch pipe would take care of all the water coming from that district. To do the work properly it was necessary to begin on the northerly side of Harvard street and remove the plank bridge, which was done, putting instead a line of 18-inch pipe, reinforcing it with 12 inches of concrete, and doing away with the old bridge, then running the pipe through the school yard into the adjoining premises. The total cost of the work was \$236.95.

In conclusion, I wish to thank the commissioners for the valuable assistance rendered in bringing the department up to its very high standing.

P. F. HALLINAN,

Superintendent.

Approved Feb. 15, 1911.

CLARENCE N. HOWE,

Auditor.

BEDS

The work at the beds, for which the town allowed \$900 to be expended upon, was not completed owing to the pressure of work upon extension and house connections, which we felt should be attended to.

The underdrain of two beds were relaid and treated at a cost of \$620, the benefit derived from the work has been clearly shown by the increase in their filtering capacity. We expect to complete the remaining beds the coming season, the expense to come out of the earning of the department.

From the analysis of the effluent by the State Board of Health, it showed to be among the highest in purification in the State, and the department has been highly complimented for the change that has been brought about in the condition as they now exist by the State Board of Health.

An order was received from the Board of Health to extend the sewer line to the Pebbles' houses on Harrison street; and your Board asked that the extension be made in compliance with the above order; and that one thousand dollars be appropriated for the same, and two thousand for general extension.

PUMPING STATION

The pumping station at its present time is in a very satisfactory condition, the greatest amount of sewer pumped since the system was installed was done in the early spring of 1910, considerably in excess of the duty expected of the pumps, which is due, in a very great measure, to the efficiency of the Chief Engineer.

In the last report your Commissioners stated that the matter of excessive flow of water in the sewer, some satisfactory statement would be made in conjunction therewith the following is presented:—

Total amount pumped for the year ending Jan. 1, 1911, was	192,409,684 gallons
Average per day	527,140 “
Amount pumped from January 1, to July 1	146,457,144 “
Average per day	804,709 “
Amount pumped from July 1, to January 1	42338.500 “
Average per day	231,357. “

which goes to show that about 29 per cent of the amount pumped is real sewerage.

The Superintendency, as heretofore, has been carried on by P. F. Hallinan and his work has been highly satisfactory to the Board.

In all matters pertaining to the running of the Department we respectfully refer you to his report.

Superintendent of Fire Alarm

JOHN CARROLL

REPORT OF THE FIRE ENGINEERS

To the Citizens of the Town of Natick,

We respectfully submit the following annual report of the Fire Department for the year ending Jan. 31, 1911, for your consideration: —

Total number of calls answered (102), divided as follows: Bell Alarms, 41, Still Alarms, 38, Telephone Calls, 21, Automatic, 2.

Buildings were damaged as follows: Total, 3, Partial, 3, Slight, 12, No Claims, 7, Total Number of Building Fires, 24, other than building fires, 78.

Value of Buildings insured		\$50,400 00
Value of Buildings not insured		2,200 00
Total		\$52,600 00
Value of contents insured	\$31,500 00	
Value of contents not insured	4,500 00	
Total		\$36,000 00
Total value of buildings and contents		88,600 00
Insurance on buildings	\$48,200 00	
Insurance on contents	31,500 00	
Total		\$79,700 00

Damage to buildings insured	\$4,900 00
Damage to buildings not insured	2,200 00
Damage to contents insured	2,155 00
Damage to contents not insured	15 00
	<hr/>
Total	\$9,700 00
Balance in favor of Department	\$78,900 00

REMARKS

The fire loss for the past year, \$9,700.00, is the smallest for a number of years, due principally to the good work of the department.

The storage battery transmitter, and two fire alarm boxes for which \$1,750.00 was appropriated, were purchased from the Gamewell Fire Alarm Company for \$1,650.00, were installed in June and give good satisfaction. Everything connected with the Fire Alarm System at the Central Station has been put in first-class condition, and no city or town can show better equipment than we can at the present time. The cost of labor and material for these improvements amounted to \$99.31, leaving a balance of 69 cents. The buildings connected with this department, with the exception of the Central Station, are in good condition. The floor at the Central Station must be repaired the coming year; the toilet room is also in need of repairs, a new bath tub should be put in, and other improvements made for the benefit of the men who sleep at this station. We recommend to your committee that \$150.00 be appropriated for that purpose during the year. The sum of \$185.00 has been expended for repairs on buildings.

Ladder No. 1 has been repaired and painted at a cost of \$154.50. The apparatus at the Central Station is in good condition; Hose 2 and 4 should be painted.

The condition of the wire on the Fire Alarm System causes much anxiety on account of the long time in use, at least two miles of the system should be rebuilt the coming year, the condition of hose in the Department is another serious matter. We have at present 3,000 feet of guaranteed hose, all the rest is unreliable. We recommended to your committee that 1,000 feet of new hose be purchased, and that \$750.00 be appropriated for the same; we also recommended to your committee an appropriation of \$7,300.00 for running expenses and pay roll, and \$2,170.00 for hydrant service.

Respectfully submitted,

W. E. DANIELS, *Chief,*

J. M. BURKE, *Clerk,*

GEORGE SCHNEIDER,

Board of Engineers.

BOARD OF ENGINEERS

GENTLEMEN:

I hereby submit my second report of this branch of your department for the year ending Jan. 31, 1911.

There were forty-one bell alarms transmitted.

The wires on the fire alarm system should be all inspected the coming year, and at least two miles of wire replaced each year until the whole system is rebuilt. The wire now in use is of the old iron type, and is not fit for the purpose.

The battery installed in June is giving good satisfaction, and the cost of maintaining the same is very small compared to the old battery.

The power for running the battery for the seven month cost \$7.63, which the electric railroad should furnish free of cost as in other towns and cities.

EXPENDITURES FOR YEAR ENDING JAN. 31, 1911

For extension of system	\$44.63
Incidentals	67.29
For batteries and supplies	23.98
For repairs	70.34
	<hr/>
Total	\$206.24

Respectfully submitted,

JOHN H. CARROLL,

Superintendent Fire Department.

FIRES AND ALARMS

For the Year Ending Jan. 31, 1911

- February 18. Box 25. Time, 8 a. m. Foley house on Union street. Bed on fire. Damage, \$15.00.
- March 2. Box 25. False alarm. Court street.
- March 4. Box 323. Brannigan house, Glen street, South Natick. Fire on roof. Damage, \$150.00.
- March 13. Box 27. Time, 9.50 a. m. Hall house on Avon street. Damage, \$10.00.
- March 15. Box 26. Time, 1.15 p. m. Studley's house on Marion street. Damage, \$15.00.
- March 15. Box 32. Time, 11.35 a. m. Brush fire on Pleasant street. No damage.
- March 15. Box 34. Time, 11.50 a. m. Frank Schuman's house, Water street, South Natick. Fire on roof. Damage, \$5.00.
- March 25. Box 26. Time, 11.40 a. m. Ginder house on Union street. Fire on roof. No damage.
- March 25. Box 42. Time, 1.20 p. m. Buck house No. Main street. Fire on roof. Damage, \$5.00.
- March 25. Box 25. Time, 1.40 p. m. Woods fire at Morse Hospital. No damage.

- March 29. Box 25. Time, 2.30 p. m. Brush fire owned by Leland, off Kansas street. No damage.
- March 31. Box 34. Time, 3.30 p. m. Brush fire off Pleasant street. No damage.

- January 6. Box 25. Time, 5.50 p. m. Underwood's automobile, Walnut street. Damage, \$20.00.

ANNUAL TOWN MEETING

BEGINNING MARCH 6, 1911

WARRANT

COMMONWEALTH OF MASSACHUSETTS

MIDDLESEX SS.

To any Constable of the Town of Natick in said County:—

GREETING:

In the name of the Commonwealth of Massachusetts you are hereby required to notify the qualified voters of said Town of Natick to meet.

The voters of Precinct No. 1 at Concert Hall, Natick.

The voters of Precinct No. 2 at School House Hall, South Natick.

MONDAY, MARCH 6, A. D. 1911

at 6 o'clock a. m., at which hour, in both Precincts of said Town of Natick the poll will be opened and will remain open continuously until 4.30 p. m., of said day, when it may be closed, unless

the meeting so assembled in either of said Precincts shall otherwise determine for such Precinct, during which time the aforesaid qualified voters of said Town may bring in their ballots to the election officers, duly appointed and sworn for said Precincts of said town of Natick, in said meetings so assembled for

One Town Clerk, one Town Treasurer, three Selectmen, one Auditor, one Highway Surveyor, one Tree Warden, and six Constables, all for one year; also one Assessor of Taxes, one Overseer of the Poor, one Water Commissioner, one Sewer Commissioner, one Sinking Fund Commissioner, one Park Commissioner, two members of the School Committee, and one member of the Board of Health, all for three years; also one member of the School Committee for one year, to fill the unexpired term of George B. Moran, resigned; also one Trustee of the Leonard Morse Hospital for seven years; also to answer by the Australian System of balloting the following question:—

“Shall Licenses for the Sale of Intoxicating Liquors be granted in this Town?”

All ballots will be furnished by the Town, and the election will be conducted according to the Australian System, as enacted in Massachusetts, and in conformity with the Election Laws of said Commonwealth.

You are further required to notify the aforesaid qualified voters of said Town of Natick to meet in the Town Hall, Clark's Block, Natick.

TUESDAY, MARCH 14, 1911

at 7.30 o'clock, p. m., then and there to act on the following articles:—

Art. 1. To choose by ballot a Moderator to preside in said meeting.

Art. 2. To see how much money the Town will grant for interest, existing liabilities and sinking funds; for roads, bridges and culverts; for sidewalks and crosswalks; for assisting and maintaining the poor; for schools, school supplies and furniture, repairing schoolhouses and evening schools; for the Fire Department and repairs to engine houses; for police and watchmen; for the support of the Morse Institute; for collection and abatement of taxes; for paying Town Officers; for military aid and assisting poor soldiers, sailors and their families; for decorating soldiers' graves; for lighting streets and public places; for maintenance of the sewer system; for the use of the Park Commissioners; for winding and repairing the town clocks; for expenses of the Tree Warden, including sums required for extermination of the gypsy and brown-tail moth; for the use of the Board of Assessors; for the use of the Board of Health; for rent of Town Hall, armory of Co. L, and office room for Town Officers; for suppressing the illegal sale of intoxicating liquors; for necessary town uses.

Art. 3. To see if the Town will authorize the Treasurer, with the approval of the Selectmen, or a majority thereof, to borrow during the current municipal year, beginning Feb. 1, 1911, in anticipation of the taxes for said municipal year, such sums of money as may be necessary to meet the current expenses of the Town, giving the note or notes of the Town therefor.

Art. 4. To see how the Town will have its taxes for the year 1911 collected, and choose a Collector of Taxes and fix his compensation; also to establish the rate of interest to be charged on taxes unpaid Dec. 1, 1911.

Art. 5. To see if the Town will appropriate a sum not exceeding \$300.00 for the support of evening schools for instruction in cooking and sewing, under the provisions of Chap. 505 of Acts of 1906; or to take any other action relative thereto.

Art. 6. To see what sum of money the Town will appropriate to carry out the purpose of Chap. 502, Acts of 1906, relative to the appointment of School Physicians.

Art. 7. To see if the Town will authorize the Sewer Commissioners to extend the sewerage system in certain cases, where, in their judgement, it is for the best interest of the town so to do, and authorize the Treasurer to borrow not exceeding \$3,000.00 for said purpose, in accordance with the provisions of Chap. 328, Acts of 1902.

Art. 8. To see if the Town will authorize the Sewer Commissioners to complete the new construction on the Sewer Beds, and appropriate money for the same or otherwise act thereon.

Art. 9. To see if the Town will vote to pay for Concert Hall one night in this year, and grant the Fire Department the free use of said hall for that night.

Art. 10. To see if the Town will vote to furnish coal for the three independent hose houses, and grant not exceeding \$45.00 to pay for the same.

Art. 11. To see what sum of money, if any, the Town will appropriate to settle claims for damages pending against the Town in which the claimants are willing to accept the sums recommended by the Selectmen.

Art. 12. To see if the Town will authorize the Water Commissioners to lay pipe in certain cases where, in their judgment, it is for the interest of the Town so to do, and authorize the Treasurer to borrow not exceeding \$3,000.00 for that purpose.

Art. 13. To see if the Town will appropriate the sum of \$500.00 for the purpose of extending the Block and Map system, so called, for the assessment of real estate, the same to be expended under the direction of the Board of Assessors.

Art. 14. To see if the Town will instruct the Water Commissioners to extend the water pipes from Pond street through Fiske street, so called, at West Natick, to the residences of P. J. McHugh and Nicholas Ziko, and others, also to extend water pipes through Fairview avenue and Broad street to the residence of William Flockhart, and also to extend the pipes through Highland avenue, and authorize the Treasurer to borrow money to pay for the same, or otherwise act thereon.

Art. 15. To see if the Town will vote to extend water pipes on Farwell street, from the Nash estate, to the house on the estate of the late Walter Burke, appropriate money to pay for the same, or otherwise act thereon.

Art. 16. To see if the Town will authorize the Water Commissioners to lay water pipes, commencing at the water pumping station on Worcester street, thence running westerly on Worcester street to Hartford street, thence on Hartford street to the Framingham town line, and authorize the Treasurer to borrow money to pay for the same, or otherwise act thereon.

Art. 17. To see if the Town will instruct the Water Commissioners to extend the water pipes on Cottage street from the

house of Wm. Rankin to the house of Joseph Jahule, a distance of about 1,000 feet, and authorize the Treasurer to borrow money to pay for same, or otherwise act thereon.

Art. 18. To see if the Town will lay a line of sewer pipe beginning at the corner of Vale and Harvard streets, running easterly on Harvard street to Rice street, a distance of about 514 feet, appropriate money to pay for the same, or otherwise act thereon.

Art. 19. To see if the Town will cause to be erected an arc light at the corner of North Main and Worcester streets (Sunnyside), and appropriate money to maintain the same, or otherwise act thereon.

Art. 20. To see if the Town will vote to install and maintain street lights as follows: Two lights on Bacon street, near residence of Henry M. Brown; one light corner of Harvard and Vale streets; one light on Kinsman place, at the northern end; one light on Leach Lane; one light on Palmer avenue; one light on Pitts street, near residence of Victor Gibson; one light corner of Shattuck street and Hillside road; one light on Pleasant street, South Natick, near the bridge; two lights on Sawin street extension; one light on South avenue, east of E. Edwards & Son's factory; one light on Waban street; four lights on Highland street; one light on Rockland street; three lights on Speen street, as follows: two lights south and one light north of Pond street; three lights on School street, as follows: one light at the rear of the barn on the estate of the late W. L. Coolidge; one at the corner of Webster street, so called, and one light at the corner of Coolidge avenue; lights on Cottage street from Woodland to Everett streets; one light on East Central street, east of

Mansfield street ; one light on Loker street, corner of Fisher street ; one light on Park avenue, near the new house of T. J. Damon ; lights on Hartford street from Framingham-Natick line to Worcester street ; appropriate money for the same, or otherwise act thereon.

Art. 21. To see if the Town will vote to light streets from 5 a. m. to daylight, during the months of December, January, February, appropriate money to pay for the same, or otherwise act thereon.

Art. 22. To see if the Town will appropriate the sum of \$1,000.00 to resurface the concrete sidewalk on North Main street, beginning at Kansas street, and continuing to the railroad bridge, or otherwise act thereon.

Art. 23. To see if the Town will gravel Boden street (otherwise known as Boden Lane), appropriate \$400.00 for the same, or otherwise act thereon.

Art. 24. To see if the Town will vote to improve Boden Lane Cemetery, appropriate not more than \$500.00 for same, or otherwise act thereon.

Art. 25. To see if the Town will vote to buy land for the use of the Street Department, build sheds thereon, or otherwise act thereon.

Art. 26. To see if the Town will vote to build a foot bridge across the B. & A. R. R. from Hanchett avenue to North avenue, appropriate money to pay for the same, or otherwise act thereon.

Art. 27. To see if the Town will vote to accept Lincoln Place, Harvard street extension, Highland, Jameson,

Jefferson, Loker streets, Sawin street extension, Sherman street extension, and Washington street (widening of part), as the same have been laid out and filed by the Selectmen, appropriate money to pay for same, or otherwise act thereon.

Art. 28. To see if the Town will vote to construct a concrete sidewalk on the East side of Plain street and grant money for said purpose, or otherwise act thereon.

Art. 29. To see if the Town will construct a sidewalk on the Easterly side of Union street, from the house of Mrs. Daniel Childs to that of Ernest Williams, and appropriate sufficient money to pay for the same, or otherwise act thereon, and have all poles now in the proposed sidewalk relocated.

Art. 30. To see if the Town will vote to construct a concrete sidewalk on the West side of Grant street, between East Central street and Sherman street, and grant money to pay for same, or otherwise act thereon.

Art. 31. To see if the Town will vote to construct a gravel sidewalk on the west side of Florence street, Natick, between Hillside road and Highland street, grant money to pay for the same, or otherwise act thereon.

Art. 32. To see if the Town will vote to place curbing on the west side of North Main street, in the front of C. W. Dean's factory, appropriate money to pay for the same, or otherwise act thereon.

Art. 33. To see if the Town will vote to appropriate the unexpended balance of the amount appropriated in 1910 for the purpose of widening Union street, or otherwise act thereon.

Art. 34. To see if the Town will authorize the construction of a concrete walk on the Westerly side of Western avenue, from Concord street, to the Hardy property, appropriate money to pay for same, or otherwise act thereon.

Art. 35. To see if the Town of Natick will vote to release and quit claim all its right, title and interest, if any, to a strip of roadway on the west side of Cottage street, south of Walcott street, said roadway being sometimes called "Lovers Lane", to Mr. John J. Linskey, owner of a large tract of land (known as the Walcott estate) on the westerly side of said "Lovers Lane," on the terms and conditions proposed by said Linskey, or otherwise act thereon.

Art. 36. To see if the Town will vote to install a fire alarm box on East Central street, on the top of Nutts Hill, appropriate money to pay for the same, or otherwise act thereon.

Art. 37. To see if the Town will vote to install a fire alarm box on West Central street, corner of Kendall Lane, appropriate money to pay for same, or otherwise act thereon.

Art. 38. To see if the Town will vote to remodel the old hook and ladder truck for the purpose of fighting forest fires, appropriate money to pay for same, or otherwise act thereon.

Art. 39. To see if the Town will vote to paint Little South Hose House, appropriate money to pay for same, or otherwise act thereon.

Art. 40. To see if the Town will vote that the rate of wages for town laborers shall be \$2.25 per day.

Art. 41. To see if the Town will vote to increase the salaries of the members of the Fire Department to \$100.00 per year, appropriate money for said purpose, or otherwise act thereon.

Art. 42. To see if the Town will appropriate a sum of money not exceeding \$125.00 for the purpose of building a shed in the rear of the Engine House, Felchville, or otherwise act thereon.

Art. 43. To see if the Town will appropriate the sum of \$250.00 to be used for the expense of removing the safes, books, etc., from the present office of the Board of Assessors in Masonic Block, to Room 23, Clark's Block, and for the purchase of necessary office furniture for said Board of Assessors.

Art. 44. To see if the Town will vote to construct a lavatory and toilet in the centre of the Town on the Common, if possible, after the plan of the one in Boston at Park street, appropriate money for said purpose, or otherwise act thereon.

Art. 45. To see if the Town will vote to appropriate a sum of money to be used to remove the bowlders and obstructions in the Charles River in South Natick, or otherwise act thereon.

Art. 46. To see if the Town will accept the provisions of Chap. 529 of the Acts of 1901, relative to keeping the water in the Charles river on a level with the top of the dam through the months of June, July, August and September, or otherwise act thereon.

Art. 47. To see if Town will vote to pay for the Treasurer's Bond for the year 1910, also for the year 1911, appropriate money to pay for same, or otherwise act thereon.

Art. 48. To see if the Town will vote to appropriate the unexpended balance appropriated in 1910 for the purpose of indexing and rearranging the franchises, and other important papers now in the care of the Selectmen, or otherwise act thereon.

Art. 49. To see if the Town will vote to accept the provision, of Section 37, of Chap. 19, of the Revised Laws of Massachusetts so that the provisions of said Chapter, and the rules made under the authority thereof, shall apply to all members of the regular or permanent police and fire forces, placing each member of said forces within the classified Civil Service, or otherwise act thereon.

Art. 50. To see if the Town will make any change in its voting Precincts, in accordance with recommendations of the Selectmen (see Statutes 1907, Chap. 560, Section 196).

Art. 51 To see if the Town will take preliminary action to provide a new building in place of the High School building; appoint a Committee who shall report plans and estimates, together with their recommendations, at an adjourned or subsequent Town Meeting; appropriate not exceeding \$500.00 to defray expenses incurred by said Committee; or take any other action to provide larger and better accommodations for the High School.

Art. 52. To see what sum of money, if any, the Town will appropriate to pay the Inspector of Provisions, and also the Inspector of Plumbing.

Art. 53. To see if the Town will vote to appropriate one hundred dollars (\$100.00) to rebuild the stone wall on the westerly side of land of Michael Orman, and adjoining South Main street, or otherwise act thereon.

Art. 54. To see what sum of money, if any, the Town will appropriate for sprinkling the public streets, the same to be assessed upon the abutters under the terms of Section 22, Chap. 25, of Revised Laws, as amended, or otherwise act thereon.

Art. 55. To see what sum of money, if any, the Town will appropriate towards the support of the Morse Hospital, or otherwise act thereon.

Art. 56. To see whether the Town will relieve E. O. Fiske from further payment of guarantee for extension of water system on Roxbury street.

Art. 57. To see if the Town will release and convey unto Michael J. Roche its title acquired by two tax deeds dated May 12, 1884, and June 1, 1885, respectively, in and to a certain lot of land situated on School street and Coolidge avenue, and now claimed by said Roche.

Art. 58. To see if the Town will cause the brook, known as Broad Farm Brook, to be cleaned, beginning at premises of Michael Mahar, Brook street, South Natick, and running along said brook to the Wellesley line, appropriate money to pay for said work, or otherwise act thereon.

Art. 59. To see if the Town will vote to employ an extra police officer, fix his compensation, appropriate money to pay for same, or otherwise act thereon.

Art. 60. To act on the reports of the various town officers as printed, and to hear and act on the reports of all committees chosen on town affairs, and to choose all necessary committees for the ensuing year. Also to choose fence viewers and field drivers.

And you are directed to serve this warrant by posting attested copies thereof at each of the post-offices in said Natick, and at the following public places in said Town, to wit : Selectmen's room, street entrance to Town Hall, Natick; Engine House, South Natick; Hose 4 House, Felchville; and at or near Felch Bros. factory, North Natick, seven days at least before said March 6, 1911. Also by causing an attested copy of said warrant to be published once in the newspaper called the NATICK REVIEW, said publication to be two days at least before the day appointed for said meeting.

Hereof, fail not, and make due return of this warrant, with your doings thereon, to the Town Clerk, at or before the time appointed for holding said meetings.

Given under our hands this 20th day of February, A. D. 1911.

TIMOTHY F. SULLIVAN,

JOHN B. MOYSE,

HARRY M. FERGUSON,

Selectmen of Natick.

A true copy. Attest :

OSCAR T. BARTLETT,

Constable of Natick.

REPORT OF HIGHWAY SURVEYOR

REMARKS

I have the honor to submit my second annual report to the citizens of the town, as Highway Surveyor, for the year ending Jan. 31, 1911.

The past year has been an unusually hard one to keep the streets in good condition, owing to the dry summer months, and the lack of snow later in the year, with the freezing and thawing, has made them very unsatisfactory; even the State highways have suffered from the same cause.

Main street, in front of Clark's Block, was in a bad condition, and being a graveled road, I thought it best to gravel it until such time as the town saw fit to put in something better, which will have to be done in a short time.

I recommended to the Appropriation Committee that we purchase a new pair of horses, as the old ones were getting past their usefulness in the departments in which they were used.

In the early spring a new pair was bought for \$725.00, and the old ones sold for \$500.00, the balance of \$225.00 was taken from the general appropriation, as you will see in my report.

We also had to purchase a new four-horse scraper at a cost of \$200.00 and the old scraper.

These, with the extra cost of hay and grain for the past year, has heavily reduced the general appropriation. Following is an account of work done the past year.

WORK DONE DURING THE PAST YEAR

24,231 running for streets resurfaced and graveled	
18,318 " " " graveled	
2,628 " " sidewalks resurfaced and graveled	
5 bridges repaired	
1 culvert repaired	
3 new catch basins	
510 feet drain laid	
2,416 yards concrete walks and drives	
2,415 yards of gravel spread	

RECEIPTS

General appropriation	
Exercise tax	\$14,560.47
Sidewalks	1,000.00
Main street bridge	1,000 00
	\$16,560.47

SUNDRY CASH ACCOUNT

John A. Hill, for horses	\$500.00
R. F. Hudson, use of steam roller and street broom	36.00
D. J. Ferguson & Son, use of steam roller	15.00
R. W. Harwood, use of steam roller	10.00
Geo. W. Fair, use of steam roller	10.00
M. E. Hall, set of double harness	10.00
M. E. Hall, use of road machine	4.00
Sewer Department, one grate	8.25
John T. Naphin, crushed stone	4.25
	\$597.50
	<hr/>
	\$1,715.97

Bills receivable	\$160.00	
Expenditures, as per list		\$17,133.63
Unexpended balance		<u>\$24.34</u>

Approved, Feb. 14, 1911.

CLARENCE N. HOWE,

Auditor.

Highway Surveyor.

ASSESSORS' REPORT

We beg to submit our report for the year 1910.

The year just past has seen a progressive increase of the efficiency of the office in the more complete systematizing of records, and consequently a closer and more comprehensive knowledge of each parcel of real estate, and in the obtaining of reliable information as to personal taxes.

The increase of the past year in valuations of nearly one-half a million dollars is indicative of the healthy growth of the town, but in itself is not sufficient to keep the rate below \$20.00 per thousand at the probable amount of the March budget.

The work on the Block and Map System was completed on January 29th. The territory under this year's appropriation is bounded by the Boston & Albany Railroad on the north; Main and South Main streets on the west; Walcott and Coolidge streets, Coolidge park and playground on the south; Sheridan street, both sides; Sherman street, both sides; to Union street, both sides, to property of Jas. H. Gould; then in a straight line running north to Mansfield street; on Mansfield street, both sides, to Boston & Albany Railroad.

A larger area was surveyed and mapped than last year, and the work of the surveyor, Mr. Hamilton Flood, who began this survey work last year, was again satisfactory in every detail.

We strongly recommend the continuance of this appropriation to the end, that in a few years we shall have an intelligent, accurate representation of all real estate in the heart of the town.

The present quarters occupied by this Board are inadequate for the proper conduct of the business of the office, and the capacity of the safes has been exhausted for the protection of the important records of the department. With some of the more important records placed in the vault in the Selectmen's room, we should be able to continue with the increased capacity created, until such time as the plans now in the Selectmen's vault can be filed, and ample room will be available.

An opportunity now exists, which may not occur for some years, of obtaining an office near the Town Clerk and Selectmen, which would be more ideal for the public convenience, and better adapted for the proper conduct of the work of the Board; and we recommend the removal of the office as soon as possible.

DAVID FINN,
JOHN H. CRAIG,
FRED J. LUCEY,

Assessors of Natick.

	\$14,818.58

REMARKS

The year 1911 has proven a very satisfactory one to the Overseers of the Poor, in regard to the results of their labors among the poor, from a financial as well as administrative standpoint.

We have got along this year with less money than for several years, having spent \$530.80 less than in 1909, and the results are even more apparent than last year.

Through the Overseers of the Poor four children have been placed in good homes this year. These children were being brought up under conditions which were most unsatisfactory and unwholesome. As the law expressly charges us to look out for such cases, we felt it our duty to step in and care for them under better influences and surroundings.

We also procured a pension, with the special help of one of our members and our late Congressman, Charles Q. Tirrell, for a girl who had long been a charge of the town, and thereby removing her from our list of applicants.

One large item in our expenses each year are the hospital bills, and although our own people are cared for now in our local hospital free of charge, the bills from other towns keep coming in and must be paid.

One luxury the Overseers of the Poor have allowed to pass in the form of some pictures. Three of these enlargements adorn the walls of the Overseers' of the Poor office, and the other three are displayed in the vestibule of the Poor Farm building. These are the pictures of three of Natick's benefactors of the poor, as

each one has left a substantial sum for the benefit of our poor people, and we could think of no better way to honor their memory than in this wise.

These pictures are the likenesses of Mrs. Sally Spaulding, Mr. John B. Walcott, and Mrs. Maria Hayes. The expense for these pictures was met from payments out of the interest of the Spaulding and Hayes funds.

As the citizens of Natick will notice in this report the names of the unfortunate poor, who have been recipients of Natick's generosity, are not published. This is expressly forbidden by a statute passed at the last session of our State Legislature.

The affairs at the farm have gone along most satisfactorily. Some \$226.00 more than last year has been turned in for produce by the Warden, and the farm keeps on improving, from year to year, under the management of the present incumbent.

The inmates are well cared for, and although most of them are very old now, the standard of health among them is excellent.

Last year we added to the farm property an ice house, at very little cost, there being a lot of old lumber on the place, which was used in the building of it. The ice bill is quite considerable every year, so this ice house will pay for itself in two seasons, as we can cut the necessary ice right on the premises.

A good deal has been said of late about the milk business at the farm, but this adverse comment can be traced clearly to a small coterie of disgruntled persons. Some fifteen months ago the milk was found to be not quite up to the standard,—a thing that may happen to the best of farmers,—the standard being set so high by the State Board of Health that it is hard to keep up to it. The Overseers of the Poor are most sorry that this should have happened, and have taken precautions against any reoccur-

rence of this kind. They hold the Warden and inmates blameless of any wrong doing.

We would again respectfully remind the citizens of Natick that their town farm is one of the best managed and equipped institutions of the kind in the State, and they should avail themselves of the opportunity to visit the place more frequently than they have done in the past. They will always be welcome, and every attention will be shown to them by the Warden and Matron of the farm.

Respectfully submitted,

WM. F. FINN, *Chairman,*
HOWARD L. MOULTON,
CHARLES L. KOPFF, *Clerk,*
Overseers of the Poor.

Approved, Feb. 10, 1910.

CLARENCE N. HOWE,
Auditor.

REPORT OF TOWN PHYSICIAN

To the Overseers of the Poor,

Report for the year ending Feb. 1, 1911, is as follows :—

The number of inmates at the institution varied from 20 to 24, varying in age from 55 to 90; and I should think that of that number 18 were over 72 years old; and, as expected, able to do any work.

The amount of sickness has not been as great as in previous years. Calls at the home, 60 ; other calls, 171.

One death has taken place at the home—an old lady of 86 years, who had a cheerful and loving disposition. She died at the hospital of asthma and chronic bronchitis. One was committed to the State Hospital at Westboro, her mind being so affected that she could not receive the necessary care at the home. The inmates are well fed and comfortably clad, and have few complaints.

The Warden and his wife keep the home neat and clean, and invite inspection of the home to the public.

W. J. COCHRAN, M.D.

REPORT OF THE TRUSTEES OF THE LEONARD MORSE HOSPITAL

The Trustees of the Leonard Morse Hospital have the honor to submit their eighteenth annual report, for the year ending Dec. 31, 1910.

The generous appropriation of \$3,000.00 made by the town at the March meeting enabled the hospital to discharge its financial obligations during the past year with reasonable promptness and relieved the management as well as some of those with whom it had to deal of much worry and perplexity on that score. It enabled the hospital also to afford relief to persons who were found to be too poor to pay for it without attaching to their names the stigma of pauperism by applying for help in their behalf. This was surely a relief to the poor and a very great credit to the town of Natick.

A person who by accident or misfortune is temporarily too sick to care for himself can in no just sense be classed as a pauper to be supported under compulsion of the statute. His claim for relief rests on a very different foundation and the basis of it is deeper and stronger than the mere statutory obligations imposed by the provisions of the poor laws. To care for the sick as such, to heal them and to restore them to health and usefulness, quite irrespective of whether they are or are not paupers, is a duty, a strong moral obligation, that rests on the whole com-

munity and that should be borne by the community as a whole, each member contributing his just share of it.

It was to enable this to be effectually done that the legislature authorized towns to make appropriations for the support of hospitals; and it is sincerely hoped that under this authority the town will continue the same generous treatment of it which was begun a year ago. Let it be understood once for all that it is a town institution — a hospital not a poorhouse — and to be looked after, treated and cared for as such.

When it is felt that the town stands ready and willing to give such help as may be needed to aid in the work, the hospital is at once put upon an independent and dignified position, and becomes more and more in fact what it is in form and substance — a town institution in which every inhabitant should feel deep interest and a strong sense of ownership.

The number of patients treated at the hospital is steadily increasing and the demands upon it are growing. There is now need of more room and in the near future more room must be provided. But the trustees have not in mind at the present time to build any additions, preferring to delay as long as possible any further outlay for buildings.

In every emergency and critical period in the life of the hospital, the hospital aid committee of the Woman's Club has done much good work in its behalf, directing all their efforts individually and collectively in aiding it to accomplish its mission; and there has now been formed for the same purpose a larger and more general society in which many of the same women have joined. The hospital is certainly under great obligations to all of these women and the trustees take pleasure in allowing them to speak for themselves, and therefore publish herewith a report of what they have done and what they are doing.

Notwithstanding the generous appropriation made by the town a considerable amount was received by the hospital during the year in voluntary contributions; but it must be understood that these contributions were voluntary and not extorted by importunate begging, or even solicitation. There certainly can be no objections to voluntary contributions to aid in charitable work if persons are generous enough to make them; and all such gifts will of course be gratefully and thankfully received by the management.

In accordance with the custom heretofore adopted the names of those giving \$50.00 or more are given in this report. They are.

Henry S. Hunnewell	100.00
Walter Hunnewell	100.00
Mrs. Henry S. Hunnewell	100.00
Patrick H. Cooney	100.00
Mrs. F. W. Sargent	50.00

The names of the other contributors will be found in the report of the superintendent.

In the last report it was stated that the "Trustees feel that they have been singularly fortunate in securing the services of Miss Van Cor as superintendent, and they have strong hopes that she will prove a worthy successor to Miss Elliott."

Miss Van Cor has now completed her first year's service, and while she has not perhaps escaped all criticism, it is felt that the hopes then expressed have been fully realized. She has shown marked business ability, and her management of the affairs of the hospital has been efficient and satisfactory, and has met, and does meet, the approval of the entire board of trustees. She occupies

a place not easy to fill. She has "the responsibility of the conduct of the hospital, of the nursing service, and the training of nurses, of executing all orders given by the physicians and surgeons, and the oversight of the housekeeping in all its departments;" and what she needs and should have in the performance of those arduous duties is the cordial co-operation and loyal support of those who have to do with the hospital and its affairs.

Miss Holbrook, who was elected a year ago assistant superintendent and head nurse, after a trial of several months, found that her strength was not equal to the work required of her, and she resigned; and Miss Harvey was elected to take her place.

During the year Dr. Cook resigned his position as attending physician, and Dr. Walcott was elected to take his place; otherwise, there has been no change in the medical staff, and all have served faithfully and well. It is of course but a repetition of what has been said many times before in these reports when we say that the thanks and gratitude of the whole community is due to those physicians for their gratuitous services to the patients at this hospital.

The report of Mr. Leamy, the Treasurer, showing the condition of the finances is appended.

For the Trustees,

PATRICK H. COONEY,

Chairman.

TREASURER'S REPORT

JAN. 1, 1910, TO JAN. 1, 1911.

RECEIVED

Balance	\$602.72	
Appropriation, Town of Natick	3,000.00	
Income from hospital	10,691.60	
Income from Masonic Block	3,732.48	
Income from cash donations	802.89	
Income from bonds, mortgages	3,332.32	
Town note due and paid	5,000.00	
	<hr/>	\$27,162.01

PAID

Expense, hospital	\$20,303.95	
Expense, Masonic Block	1,175.55	
Note, Natick National Bank	1,026.50	
5 Telephone and Telegraph Bonds and interest, to replace town note	4,651.39	
	<hr/>	\$27,157.39
Balance		4.62
		<hr/>
		\$27,162.01

RECEIVED INCOME FROM HOSPITAL AS FOLLOWS:

Service nurse	\$ 599.04
Ward patients	2,123.89
Private patients	7,233.42
Outside Towns and State	251.00
Use of Ambulance	251.25
Miscellaneous	233.00
	<hr/>
	\$10,691.60

EXPENSE OF HOSPITAL

Pay roll	\$ 7,884.50
Provisions	5,898.37
Fuel	1,844.83
Light and power	595.51
Drugs	514.94
Repairs	898.55
Supplies	1,384.47
Sewer, water, telephone and miscellaneous	935.28
Insurance	107.50
Ambulance	240.00
	<hr/>
	\$20,303.95

The investments remain the same with one exception: the town of Natick, paid a note due of \$5,000.00, and five Telephone and Telegraph Bonds, par value \$1,000.00, were purchased instead.

(Signed)

J. B. LEAMY,

Treasurer.

SUPERINTENDENT'S REPORT

To the Trustees of Leonard Morse Hospital:—

GENTLEMEN: I have the honor to submit the Twelfth Annual Report of the superintendent of the Leonard Morse Hospital for the year ending Dec. 31, 1910.

STATISTICS

Number of patients in the hospital Dec. 31, 1909	12
Admitted from Jan. 1, 1910, to Dec. 31, 1910, inclusive	355
Number treated during 1910	367
Admitted :—	
Males	141
Females	214
Surgical cases	177
Medical cases	135
Maternity cases	43
Discharged well	236
Discharged improved	74
Discharged not improved	10
Died	34
Remaining in the hospital, Dec. 31, 1910	13
Deaths within 24 hours of admission	7
Deaths within 48 hours of admission	2

Number of operations	176
Largest number of patients in the hospital during 24 hours	27
Smallest number of patients in the hospital during 24 hours	5
Daily average number of patients	16.42

NATIVITY OF PATIENTS ADMITTED DURING THE YEAR

United States	257
Canada	23
England	19
Ireland	36
Scotland	4
Sweden	2
Germany	5
Italy	4
Albania	3
Turkey	1
Syria	1

The income of the hospital has been as follows:—

Ward patients	\$ 2,123.89
Private patients	7,233.42
Outside Towns and State	251.00
Services of nurses outside the hospital	599.04
Use of ambulance	251.25
Miscellaneous	233.00
	<hr/>
	\$10,691.60

Seventy-five more patients were admitted than in the year 1909.

The amount of charitable work for the year has been as follows: 178 days free treatment to twelve patients at the regular ward rate of \$10.50 per week, \$267.00.

Services of physicians and surgeons given free to ward patients, \$3,700.00.

Partial rebates from the regular ward rate to thirty-one Natick patients.

The work in the maternity department has increased this year, there having been 40 births, 17 males and 23 females.

It has been found necessary to take one of the private rooms for a nursery, in order that the babies might have a quiet place away from the other patients.

The need of a separate maternity ward is increasing each year, and it is hoped that such a building may be provided in the near future.

The Women's Club have added a chiffonniere, electric fan and table, to the private room which they furnished two years ago.

I would express my appreciation to the women of the Hospital Committee for their loyal support and willingness to aid in every way possible. The committee have lost during the year two of its most devoted members, Mrs. Rose S. Cook and Mrs. Catherine Nelson. These women have been greatly missed, as they were ready at all times to render valuable assistance.

Early in the year the Hospital Committee decided that an association should be formed which would reach a larger circle, and in that way create a greater interest in the work of the hospital, so the Ladie's Aid Association was organized. This association has been very helpful in our work, and we trust the membership will be increased the coming year. The reports of the secretary and treasurer of the association will show the work that it has done.

We are very grateful to those who have so kindly furnished music on Sunday afternoons at the hospital; also to the many ladies who have assisted us by sewing.

In closing I would express my sincere appreciation to the trustees for their loyal support.

Respectfully submitted,

NELLIE J. VAN COR,

Superintendent.

TRAINING SCHOOL FOR NURSES

For the year ending Sept. 30, 1910.

The school has completed its tenth year. The superintendent and her assistant have given 80 class instructions. The school has received 40 lectures from the physicians connected with the training school, and others. Twenty-eight lessons in Domestic Science were given by Miss Sprout. The massage lessons continue in charge of Mrs. Callowhill, and the District Nursing under the direction of Miss Daniels. Eight lessons in chemistry and urinalysis have been given by Mr. H. Carleton Smith.

The class in anatomy and physiology has been conducted by Dr. Miller, and we regret his inability to conduct this class another year, owing to lack of time. Dr. Hatch has kindly consented to conduct the class this coming year.

We would express our appreciation of the lectures given by Dr. Edward French of Medfield; Dr. Edgar Holmes, Dr. P. Somers Smyth and Dr. Mac Anslan of Boston; also the doctors connected with the Training School.

Two Nurses have been graduated and one nurse dropped during the year.

The Nurses Club have held three meetings [during] the year at the Hunnewell Home.

The third annual meeting of the Alumnae Association was held in September.

Respectfully submitted,

NELLIE J. VAN COR,

Superintendent of Training School.

LIST OF GRADUATES

LEONARD MORSE HOSPITAL TRAINING-SCHOOL FOR NURSES

1901

Miss Rose M. Dyer, private nurse, Medford, Mass.

1902

Miss Alberta I. Morton, private nurse, New York City.

Miss Gertrude S. Newcomb, private nurse, Natick, Mass.

Miss Elsie Boynton, California.

1903

Miss Grace E. Colby, Natick, Mass.

Miss Mary B. Gallagher, married, Natick, Mass.

Miss Martha McKenzie, private nurse, Natick, Mass.

Miss Agnes E. Gorman, private nurse, New York City.

1904

Miss Sarah J. Campbell, private nurse, New York City.

Miss Minnie A. Edwards, private nurse, Natick, Mass.

Miss Martha A. Beal, private nurse, Natick, Mass.

195

1905

Miss Gertrude G. Jenkins, district nurse, Wellesley, Mass.

Miss L. Agnes O'Connor, private nurse, New York City.

1906

Miss Margherita B. P. Jolly, private nurse, Boston, Mass.

Miss Laura B. Phinney, married, Springfield, Mass.

1907

Miss Emily V. Stiles, private nurse, Natick, Mass.

Miss Martha Walker, district nurse, Whitinsville, Mass.

1908

Miss Donaldena MacDonald, private nurse, California.

1909

Miss Catherine Dacey, private nurse, Natick, Mass.

Miss Mary K. Loftus, district nurse, Winchendon, Mass.

Miss Mary L. Miller, private nurse, Natick, Mass.

Miss Agnes G. Kelliher, private nurse, Natick, Mass.

Miss Anna L. V. Hayden, private nurse, Natick, Mass.

1910

Miss Minnie R. Phinney, private nurse, Springfield, Mass.

Miss Ellen K. Powers, private nurse, Boston, Mass.

Chapman, 1 box paper dolls; Mrs. Grace Colby, 1 book for the patients' library; Mr. Frank Frangoulas, fruit, nuts and candy; Miss Valentine Hayden, roses for the nurses; Natick Protective Union, 2 boxes candy, 2 boxes crackers; Young Ladies' Guild of the Congregational Church, potted plant, calendar and candy bag for each patient.

CHILDREN'S DONATIONS

Twenty bars soap, 6 pounds sugar, 3 pounds tapioca, 5 pounds rice, 3 pounds corn starch, 5 glasses jelly, 1 cake, 1 peck apples.

Report of Secretary of the Ladies' Aid Association of Leonard Morse Hospital

To the Superintendent of the Leonard Morse Hospital:—

The Ladies' Aid Association of the Leonard Morse Hospital,

MRS. W. S. PATTEN, *President*,

MISS C. S. HUNNEWELL, *Treasurer*,

was an outcome of the Hospital Committee, and was formed in the spring of 1910 to interest more people of Natick, and the surrounding towns, in the work of the hospital, and to provide help towards the supplies.

The first meeting was held on the fourth of May, when a Board of Managers was elected and work was distributed to those willing to take it, the sewing being done during the summer.

Up to Jan. 1, 1911, the association has provided:—

Three dozen sheets, 9 dozen pillowslips, 8 tablecloths, 5½ dozen napkins, 4 dozen bandages, 6 dozen sterilizing covers, 4 dozen etherizing stockings, 18 dozen towels, 2 dozen infants' night-gowns, 6 bedspreads, 40 bedgowns, which were made at Randall's factory, the work paid for by the Association; 12 surgeons' gowns,

which were made by the Needlewomen's Friend Society of Boston, and the material for curtains for the private rooms.

The association has a membership of one hundred and eighty-six, besides an associate membership made up of those who are willing to help by sewing; and it is earnestly hoped that as the work becomes better known the interest may be more widespread, and that we may start in our second year with increased members.

Respectfully submitted,

F. G. WHIDDIN, *Secretary*.

RULES AND REGULATIONS

SUPERINTENDENT.

The Superintendent of the Hospital shall be an educated nurse, trained in executive duty. Subject to the Trustees, she shall have the responsibility of the conduct of the hospital, of the nursing service and the training of nurses, and of the execution of all directions given them by the attending physicians and surgeons, and shall have sole oversight of the housekeeping in all its departments, and be responsible for the orderly condition of the household and its work.

She shall have the power of appointment and removal of employees under her direction.

She shall keep an account of all furniture and hospital property ; she shall keep such accounts as are placed in her charge, of all money received and expended by her, and shall render a monthly statement thereof to the Trustees.

She shall take charge of all money and other personal effects belonging to the patients, shall keep a record of the same in a book provided for that purpose, and shall take a receipt for the same when returned to the patients. When a patient dies she shall furnish the Trustees with an inventory of all the effects, and the Trustees shall direct their disposal.

She shall purchase provisions and supplies of all kinds, examine them when received, and be responsible for their proper quantity, quality and cost, and for their proper care and economical use.

She shall keep memoranda of breakage or losses occasioned by the patients, or otherwise; and she is directed to require payment for any article carelessly injured or broken, and to make a report each month to the Trustees.

She shall keep a record of all gifts received at the hospital.

She shall receive all patients recommended for admission in the manner directed by the Trustees.

She shall see that the proper surety is furnished for the payment of hospital charges, and shall assign patients to appropriate beds or rooms.

She shall keep a register of all patients admitted, noting the particulars of the same, filling out the bed card, etc., in the manner provided. When a recommendation is received for the discharge of a patient, she shall act upon the same, and shall attend to the settlement of the patient's accounts.

She shall keep a record of the discharge and, on the part of the hospital, see that the removal is made with all the care the patient's condition may require.

She shall see that all patients receive proper attention on admission, that everything necessary is done for their care and comfort under the direction of the attending physician, or of the physician or surgeon by whom the patients have been sent, and that all proper care is given during their stay in the hospital.

She shall report to the Trustees monthly the names and conditions of all patients remaining in the hospital more than four weeks.

She shall send for the physician or surgeon in attendance in all cases of emergency; or if he cannot be found, for some other member of the medical staff.

When the condition of a patient becomes dangerous, she shall immediately notify the friends and relatives of such patient.

Upon the death of a patient she shall immediately give written notice to the family or friends requesting them to make proper arrangements for removal. No body shall be removed between the hours of 6 P.M. and 7 A.M. She shall keep a copy of notice sent to relatives of deceased patients. Upon delivery of the body to the friends or the undertaker, she shall take a receipt therefor.

No instrument, apparatus, book, or other property belonging to the hospital, shall be taken therefrom without her consent, and she shall keep a record of all articles so taken.

She shall daily visit and inspect the wards, kitchen, laundry and all other departments of the hospital.

The superintendent is requested to discourage conversation at her table, and in every other place, either in the hospital, or outside, upon all topics in the nature of gossip, about any patient. Any nurse or servant who disregards this injunction shall be liable to be discharged.

VISITING PHYSICIANS

The regular medical and surgical service of the hospital shall be entrusted to a staff of six attending physicians who shall be elected by the Trustees, and shall hold their offices for one year, or during the pleasure of the Trustees, and until their successors have been elected. The Trustees shall also elect one or more attending surgeons, who shall hold their positions under the same

conditions as the attending physicians. The Trustees shall also elect an attending homeopathic physician, and one or more assisting physicians, who shall hold their offices on the same conditions as the members of the staff. The Trustees shall also elect one or more physicians and surgeons, who shall be consulting physicians and surgeons, and shall hold their offices until the next annual meeting, and until their successors have been elected.

Any member of the staff, on retiring from staff service, may be elected a senior physician, which election shall entitle him to all the privileges enjoyed by the staff, except that he shall be exempt from ward service other than optional.

The term of service of the attending physicians shall be two months each, the order of service to be arranged as provided by the Trustees.

The member of the staff in attendance shall control and direct the management of the patients under his care. He shall prescribe medicine and diet in the manner provided, and give such other directions as may be necessary for the welfare of the patients. Subject to the approval of the Trustees he may arrange to have one of the attending surgeons take charge of the surgical cases during his service. All directions shall be given in writing upon the proper blanks and order books.

He shall make visits as required during his term of service, and will be expected to make such visits regularly between 9 A.M. and 12 M.; or he shall provide as a substitute some other member of the medical staff.

In the absence of the attending homeopathic physician having the case of a patient in a public ward, he shall provide, if possible, another homeopathic physician in his place, subject to the ap-

proval of the Trustees. In case he cannot make such provision, the care of the patient shall devolve upon the member of the staff on duty at the time.

The attending physician shall see that a careful clinical record of all patients in his service is kept in the manner provided. This record shall not be taken from the hospital, and no extract shall be made therefrom by any person not authorized by the Trustees.

He shall report to the superintendent all cases of neglect or inefficiency observed by him on the part of subordinate officers, nurses or other attendants, or servants.

It shall be the duty of the physician in attendance to call in consultation one or more of the members of the staff in all cases of severe accident and those requiring capital operations; and it shall be the duty of the consulting surgeon, or surgeons, when called, not only to give advice, but to either assist at or perform the operation when so requested by the physicians in attendance, and in grave cases they may be invited to take charge of the patient. When deemed necessary by the attending physician, and at least one other member of the staff, other physicians and surgeons may be called in consultation, provided it be done without expense to the hospital.

No surgical operations shall be performed without the consent of the patients, or those in authority over them, when such consent can be obtained. In cases in which such consent cannot be obtained, a record of the reasons shall be made; and in all operations of a grave character, information of the nature of the operation, and the danger attending it, shall be given to the patient if able to receive it, or to those in authority, if their presence can be obtained.

No operation of a dangerous character shall be performed without the consent of at least two members of the medical staff.

The physician in attendance shall see that no autopsy is made within ten hours after notice of death has been sent, unless with the express consent of the family, or friends of the deceased, nor at any time when it shall have been expressly prohibited by the patient, or by the family or friends. He shall enter every autopsy in a post-mortem register kept for the purpose, giving name of deceased, date of death, notice and examination, whether consent was obtained or not, and by whom the autopsy was made and what it revealed.

No attending physician or surgeon shall receive a fee or pecuniary compensation from a patient in a public ward. The same rules and regulations shall apply to attending surgeons as are now, or may be hereafter, in force relative to attending physicians.

PATIENTS

Applications for admission must be made to the superintendent at the hospital.

Patients will be admitted to the hospital upon the recommendation of any member of the medical staff, or any other reputable physician, subject to the rules of admission and the approval of the Trustees. In such cases satisfactory arrangements shall be made with reference to payment of hospital charges.

Patients will be admitted on each day of the week, Sunday excepted, between the hours of 9 and 11 A.M. Emergency cases and persons accidentally wounded and otherwise disabled, who are taken directly from the place of accident, shall be received

into the hospital at any hour by day or night, if proper cases for hospital treatment. The rate to be paid shall be determined as soon as possible thereafter, in accordance with the rules of the hospital.

Patients may be admitted to the hospital at such rates as the Trustees may from time to time determine. Payments are to be secured by the employer or friends of the patient, by the authorities of the place where the patient belongs, or by the deposit of the amount of two weeks' charges, or more, if deemed necessary. When in the opinion of the Trustees the circumstances of the applicant require it a whole or part of the charges may be remitted. The agreement for the stipulated payment shall be in writing in the form provided.

Patients paying ten dollars and fifty cents per week may be admitted to the public wards; all patients in public wards shall be regarded as beneficiaries of the hospital. No patient shall occupy a free bed more than six weeks, except by special permission of the Trustees. Patients desiring private rooms will be admitted upon special terms in each case.

The price of a private room does not include professional attendance. A patient paying for a private room may select as professional attendant any one of the physicians connected with the hospital, and must arrange with him in regard to his compensation before admission to the hospital, or on his first visit thereafter.

The superintendent is authorized to make special terms for patients in private rooms requiring extra nursing, and requiring expensive medical and surgical supplies for their treatment.

Persons suffering from insanity, contagious diseases, acute venereal diseases, or persons having delirium tremens shall not be admitted.

No person shall be admitted to the hospital whose case is adjudged incurable, unless there be urgent symptoms which are deemed capable of being relieved.

Any patient who prefers, can have a homeopathic physician if practicable.

Whenever any patient shall be removed from the hospital without the approval of the attending physician, the superintendent shall require from the person assuming the responsibility for the removal a written statement to that effect.

Patients must be in the hospital, except when allowed to go out by the physician or superintendent.

Patients either disorderly or disobedient may be discharged at the discretion of the superintendent.

Patients may be visited by clergymen of their own selection.

Visitors to patients will be admitted on every afternoon from 2 to 3 o'clock; and on Wednesday evening from 7 to 8 o'clock.

No patient will be allowed to see more than two visitors on the same day. In case of dangerous illness, friends may visit the patient at any time by permission of the superintendent. No visitor shall take a meal at the hospital, nor remain over night without permission of the superintendent.

The attending physician, or the superintendent, by his instructions or in his absence, may at any time exclude visitors from any patient when this seems advisable for the patient's welfare. Visitors are especially cautioned that nothing shall be brought to the hospital for patients without the permission of the superintendent.

JANITOR AND ENGINEER

The janitor and engineer, who is under the authority of the superintendent, has charge of the heating and ventilation of the hospital, and shall endeavor to keep the wards, hall and other

rooms, at a prescribed temperature. He shall see that the gas, electricity and water are properly regulated and not wasted, or unnecessarily used, and the hospital grounds are suitably cared for.

He shall assist in the moving and the care of patients, and attend to such other matters about the hospital as the superintendent may require. He shall not leave the hospital grounds without the knowledge and consent of the superintendent. He shall see that all doors and windows are secured, and that the lights are turned off at 10 P. M.

SELECTMEN'S REPORT

The Board of Selectmen organized by the election of Timothy F. Sullivan as Chairman, and Harry M. Ferguson as Clerk.

The following appointments were made:—

POLICE: Hiram J. Brown, Chief; George M. Foster, William J. Hogan, Edward J. Murphy, John H. Riley and James B. Sweeney, Patrolmen.

ENGINEERS FIRE DEPARTMENT: William E. Daniels, George F. Schneider and James M. Burke.

LOCAL COMMISSIONER GYPSY AND BROWN-TAIL MOTHS: Henry S. Hunnewell.

SEALER OF WEIGHTS AND MEASURES: William A. Hanna.

CATTLE INSPECTOR: John W. Robinson, M.D.V.

BURIAL OFFICER: Royal B. Wight.

TOWN WEIGHER: John H. Carroll.

TOWN COUNSEL: Michael F. Kennedy.

LOCKUP KEEPER: Hiram J. Brown.

FOREST WARDEN: William E. Daniels.

DOG OFFICER: Egbert A. Stricksma.

KEEPER OF POUND: Egbert A. Stricksma.

DISBURSING STATE AND MILITARY AID AND SOLDIERS' Aid Patrick Mahan.

REGISTRAR OF VOTERS : Arthur W. Robinson, in place of Forrest N. Adams, resigned, to represent the Republican party.

REGISTRAR OF VOTERS : Michael H. Sweeney, to represent the Democratic party.

COMMITTEE ON APPROPRIATIONS : J. J. Ahern, R. A. Clink, C. H. Chamberlain, W. O. Cutler, G. C. Fairbanks, M. T. Hall, P. F. Hallinan, B. J. Healy, W. T. Howard, C. N. Howe, J. F. Kenealy, M. F. Kennedy, F. J. Lucey, E. L. McManus, C. E. Moody, D. J. Murphy, T. J. Murphy, A. B. Pierce, G. W. Travis and J. T. Wignot.

LICENSES

AUCTIONEERS : Forrest N. Adams, John H. Allen, Charles W. Burks, Ernest W. Burks, George Nutt.

BOWLING ALLEY : Peter E. Fair (surrendered), Thomas M. Welch and T. Frank Clark.

COMMON VICTUALLERS : George Alexander, John Kirby, Fred E. Lambe, Edward F. McGrath, James J. Rourke.

EXPRESS : American Express Co., Frederick G. Bailey, Howe & Co.

INTELLIGENCE OFFICE : Llewellyn E. Pulsifer.

JUNK : Max Broitman, A. Coopersmith, Jacob Halperin, Louis Mordis, Morris Mordis, M. Russin, Jacob Silver.

LUNCH CARTS : George H. Brooks, John J. Doyle.

MORTGAGE LOANS : O. H. Burleigh, Edwin Farwell.

PEDDLERS : Popcorn, Henry F. Pope, Samuel W. Town.

PICNIC : Sunnyside Park Association and Division No. 27, A. O. H., Sunnyside Park Association.

POOL : James E. Conroy, Fred E. Lambe, Edward F. McGrath, James J. Rourke.

PUBLIC AMUSEMENTS : Samuel W. Pollock and Harold E. Barton, for the Lyric Theatre.

PUBLIC WEIGHERS AND MEASURERS : Andrew L. Anderson, John H. Carroll, Peter E. Fair, John A. Hill, Ernest F. Holbrook, Clarence N. Howe, Walter H. Metcalf, Charles F. Robinson, Frank B. Robinson, Miss Mary J. Sullivan, Miss Emily E. Wingate.

REMARKS OF SELECTMEN

In April the Town Treasurer, Edward Clark, requested the Board to appoint a Treasurer, *pro tem.*, as a serious illness prevented him from performing the duties of the treasuryship. The Board appointed Daniel J. Murphy. In May Edward Clark died, and Mr. Murphy assumed the full duties as Treasurer of the town of Natick. In the death of Mr. Clark the town of Natick lost a splendid citizen and an able executive.

He had served the town as Treasurer for more than a quarter of a century, and gave his best efforts to the town's public interests.

That he had the confidence of the tax-payers was evident, since he was unopposed for Treasurer at the annual elections, both parties accepting him as their candidate. The town of Natick will hold in esteemed remembrance the name of Edward Clark.

STREET RAILWAYS

The Boston & Worcester Street Railway Company petitioned the Board for permission to lay tracks on the north side of Worcester street, between Sunkaway bridge and Oak street, to be used as a siding for the purpose of reaching their gravel pit, and the Board granted the petition, with these provisions:—

1st. That the franchise should terminate at the end of five years.

2d. That the company should immediately remove all tracks not in use on Park street, near the Common.

3d. That the company should pave or macadam the crossings on Worcester street, at the intersection of Park Ave., Walnut and Oak streets.

The Selectmen have perambulated the town boundaries of Wayland and Dover.

The Selectmen entered into contracts with the Welsbach Street Lighting Company of America, and with the Edison Electric Illuminating Company of Boston, for lighting the streets, in accordance with the vote of the town.

POLE LOCATIONS AND CONDUITS

Pole locations have been granted to the Edison Electric Illuminating Company of Boston, as follows :—

On Charles street, 2 ; Cottage street, relocation, 1 ; Dover street, 1 ; Florence street, relocation, 1 ; Summer street, 1 ; Walcott street, 1 ; Walnut street, 21 $\frac{1}{2}$; Worcester street, 5.

Attachment of fixtures and wires to the poles of the New England Telephone and Telegraph Company, as follows :—

On East Central street, 10 ; Florence street, 1 ; Highland street, 1 ; Park avenue, 4 ; South avenue, 3 ; Washington street, 1.

To the New England Telephone and Telegraph Company, as follows :—

On High street, 1 ; Highland street, 3 ; South Main street, 4 ; Union street, 1 ; Woodland street, 1 ; Forest street, 4.

Attachment of fixtures and wires to the poles of the Edison Electric Illuminating Company, as follows : —

Bacon street, 15 ; High street, 2 ; Rockland street, 1 ; Walnut street, 19 ; Water street, South Natick, 6 ; West Central street, 1.

To the Postal Telegraph Company, as follows :—

Pleasant street, South Natick, relocation, 3.

To the Middlesex & Boston Street Railway Company, as follows :—

On Mill street, 6.

The Edison Electric Illuminating Company was granted permission to extend its conduit on North avenue for a distance of about 220 feet.

The Natick Gas Light Company was granted permission to lay its gas pipes in the following streets, as follows :—

Washington avenue, from Middlesex avenue to North Main street.

North Main street, from Washington avenue to Kinsman place, Park avenue.

Sherman street, from Grant street to Morse street.

MAIN STREET BRIDGE

The Selectmen took up the matter of the liability for repairing the under floor on the Main street bridge, and in view of the fact that there are seven such bridges in the town, having an under floor and a wearing surface, the Board considered it of sufficient importance to test the matter in court.

Accordingly, proceedings were instituted against the Boston & Albany Railroad and the Middlesex & Boston Street Railway Company, to determine the respective rights of the parties. Pending the decision of the court, the work was done by agreement of the parties, upon the understanding that whoever is declared liable by the court will pay the expense of replacing the under floor at this time. The case was heard by a justice of the Superior Court, who ruled that the town has the duty of repairing both the under floor and the wearing surface, but that "it is the duty of the street railway to keep that part of the flooring, whether made by two planks or one, between the rails, and from 15 to 18 inches on either side, in repair."

The case is being prepared for the Supreme Judicial Court upon the town's exceptions, and will probably be heard soon.

TIMOTHY F. SULLIVAN,
JOHN B. MOYSE,
HARRY M. FERGUSON,

Selectmen of Natick.

REPORT OF THE SCHOOL COMMITTEE

The superintendent presented his annual report for the year ending Feb. 1, 1911, which meets with the approval of the School Committee. We desire especially to call attention to his recommendation concerning the need of a new high school building, and express our conviction that a new building must be provided soon if the children of the town are to be given the higher education which they seek.

ALBERT A. FELCH,

Chairman.

REPORT OF SUPERINTENDENT OF SCHOOLS

Members of the School Committee, Natick, Mass:—

In submitting this, my annual report for the school year 1910-11, I wish to express my appreciation, and I am sure the appreciation of the entire teaching body, for the most cordial and sincere support that the schools and the teachers have received from the School Committee, as well as from the citizens of Natick.

This whole-hearted support, not merely in a financial, but in a moral way as well, has assisted us very materially. It solves the problem of discipline to a large extent. It means the co-operation of the home, which assists so materially in the teaching and the control of the pupils.

I feel in the face of such support that whatever the schools during the past year have failed to accomplish that might have been accomplished, or whatever of just criticism for faults has been made against them, the superintendent and teachers will cheerfully assume responsibility for. With the same support in the future, we may look forward with certainty to constant improvement, advancement in the schools, and in the proficiency with which they do the work for which they are maintained.

There have been changes in the personnel of our corps that I feel deserve mention at this point. The greatest loss has been our high school principal, Mr. Horace W. Rice, who for fourteen

years administered affairs of the high school with such faithfulness and efficiency. No person who knows the love and respect with which he is held by all the pupils, can question his worth and proficiency as a teacher and a man.

His successor, Mr. Edwin A. Shaw, has already abundantly proved that the school committee made no mistake in choosing Mr. Rice's successor.

We lost a very efficient principal of the Wilson grammar school when we lost Mr. Chester A. Starrett. Mr. Thomas H. Kenworthy has filled this vacancy most satisfactorily.

There were eight other changes in the teaching corps, and I take this opportunity to express gratification publicly at the entire efficiency and success with which those chosen by the committee have discharged their new duties.

Schools are maintained for the benefit of the children of the town. Whatever tends towards their improvement, mentally, morally or physically, should become a part of our school system. We should eliminate whatever is harmful. Our ambition should be to have our schools improve and develop to suit new conditions of modern life, and fulfil the higher ideals and greater demands made in the way of education for children.

This makes the educational problem one of increasing complexity. It makes the expenses constantly increase. Schools are administered from a wholly different and much higher basis than any other of the town departments. Improper or incompetent management or workmen in any other department may result in material loss or inconvenience to the town, but in the schools inefficiency is felt by the children. It affects their future welfare in a most decided way. Schools should be administered wholly with an idea to the welfare of these children, to produce the highest possible citizenship for the future.

The question of school administration is not one of economy, primarily, but efficiency. It is a hard matter to weigh character and efficient citizenship in the balance with money. Therefore, any expense in buildings, equipment and supplies, which will give any better training to the citizens of the future, should be freely granted, as has always been done by this town in the past, and I feel sure will be done in the future.

The positions in our teaching corps should not be regarded as so much patronage to be doled out, as political positions too frequently are, but in filling them the question should be asked: "Who will do the most for the children?" and the one chosen from this standard should infallibly receive the position.

BUILDINGS AND GROUNDS

During the past year routine repairs have been made on the various buildings, and in addition to that many improvements of a permanent character have been made. The Beacon school building, Felchville, and Oak Grove buildings, have been repainted. The grounds of the Nathan Rice school have been regraded, additional closets installed, and the interior of the building repainted. Book closets have been installed in nearly every building. In South Natick a concrete walk has been laid, and the drainage system improved. The North Natick building has been repainted inside, the seats repaired, revarnished and reset. A furnace providing for the ventilation, as well as for the heating, has been installed. The foundation walls have been repaired, book closets, etc., have been added, and practically all has been done that is possible to do to place a one-room building on a modern basis.

Bubbling drinking fountains have been installed in all the buildings.

Our policy is not to spend any more money on the present high school building than is necessary for the accommodation and health of the pupils. We have opened up an additional room as well as rearranged others to accommodate our rapidly-growing enrollment. Next year, however, as has been suggested in the accompanying report of the high school principal, much will have to be spent to provide for the safety and accommodation of the additional pupils.

The South Natick building needs a thorough renovating, as its condition at the present demands repainting inside and out. The grounds of the Bacon school in time of thaw, or following heavy rains, are usually in an extremely miry condition. If some system of drainage could be devised to prevent this it would be a most worthy improvement. This applies to the Harvard street building, for the basement is frequently flooded with water. Any efficient method of drainage will probably entail considerable cost.

I endorse most heartily the plan proposed to have a special committee appointed to investigate the housing of our high school pupils, and make recommendations concerning the same a year hence. We have outgrown and outworn present accommodations, and the responsibility for any crowding or lack of accommodations is now up to the citizens of Natick.

COURSES OF STUDY

The haziness and indefiniteness that we mentioned last year as being a defect in the course of study has been obviated to some extent. We have installed the Palmer System of penmanship, the addition of which we believe to be a satisfactory solution of the teaching of that subject.

The Gulick Health Series of physiologies have been adopted throughout the grades. It is a striking fact that the pupils, as

well as the teachers, are very enthusiastic over these books. No study in our course, I believe, has such a civilizing and refining influence as this, or tends so much towards better living.

In spelling we have adopted the Spaulding and Miller series spellers, and a very superficial investigation will quickly show that we are doing much more thorough work in this very important subject than heretofore. The indefiniteness as to the course in history has been obviated to a great extent by the use of a suitable text-book in the fifth and sixth grades, and in the completion of a text-book in the other grades rather than the study of a particular portion of United States History in each grade.

In the course in drawing, as far as possible, we follow the course in the Boston schools. We have provided the teacher with all the materials asked for, and in free-hand work quite satisfactory results are being achieved. We hope to correlate the work of the drawing supervisor and the manual training supervisor to a considerable extent next year, thus providing for work in the manual arts down to the beginning of school life.

The teacher of music recommended the use of the Weaver Method of teaching music. This method has proved very satisfactory. Each teacher, too, is now provided with a slip on the first of each month outlining the work in music for the month.

These two items have added much to the efficiency of our course of music. More attention should be devoted to music in high school. At present it is optional, and the course is not satisfactory. We have no auditorium in the present high school suitable to accommodate the entire body of high school pupils.

A change is needed in this subject of music in the high school. No subject does more to inspire the pupils or awaken their enthusiasm for school life than this.

The State Board of Education is formulating a course of study for the first eight grades. This will be completed in March. As far as possible, we would like our course to be in harmony with it, so I deem it inadvisable to do anything at present with the course in history, and one or two others, that are indefinite.

In the high school the course suffers from too great freedom of election. Principal Shaw is formulating a scheme of group electives that will equalize the work in the various courses and avoid the choosing of easy subjects merely to make up the points required for graduation. The school should be organized on a more strictly departmental basis. It is very hard to classify all the teachers, as some teach practically all subjects. Each department should have a head. This would make those positions more attractive and enable us to secure the exceptional man or woman for the head of any particular department.

The course in Mechanical Drawing needs a complete reorganization. The program should be arranged so that the high-school pupils can take Manual Training courses during the high school hours. The course provided for them should be greatly amplified and enriched beyond what it is now. Probably an advanced course in Domestic Science for the girls would be advisable.

A gradual increase is to be noticed in the schools constantly, in the amount of work that can be completed in the elementary grades in all subjects. This is due to a more logical ordering of the course, improved equipment, more regular attendance and, most of all, to more skillful teaching. We expect to set up definite standards in spelling and penmanship so that by attaining them pupils may complete those subjects in the eighth grade, or even below. This will give opportunity for additional attention to other subjects that should be completed thoroughly before entering the high school.

We do not favor the plan now gradually being adopted of having but eight grades below the high school. Our pupils begin school at the age of five, and attend half sessions during the first two years, so that what we have is, in a measure, equivalent to eight grades. We promoted eighteen pupils last year from the eighth grade to the high school. We feel that no mistake was made in doing so. Eleven pupils in the high school freshmen class of 123 members were excused from their mid-year examinations on account of high-class rank. Four of these came from the eighteen promoted from the eighth grade while two others had to take examination in one subject only. In general, we favor advancing a child as rapidly as his ability permits. Courses of study are not an exact gauge of each pupil's capacity for advancement. We urge teachers to study individual capacity carefully, and advance as ability warrants.

MANUAL ARTS

The most marked development in our school work has been in the line of manual arts. Last year the schools were without any supervisor of sewing. This year we have employed Miss Irene M. Kimball, who spends each Tuesday in supervising the sewing in the sixth and seventh grades. The course in sewing has proved to be very popular indeed, and Miss Kimball has given splendid evidence of her ability and training in organizing and conducting this work.

The girls of the eighth and ninth grades receive instruction in cooking. This department has been improved by several hundred dollars' worth of new equipment, and the place is in as good condition as the present building permits. No part of school work does so much for the future welfare of not³⁹ merely the girls

who take the course, but in a very direct way; the boys as well. In no department can such efficient and useful work be conducted at so low a cost.

We have added very much to our manual training equipment. An electric motor has been installed, also a new lathe, machinery for grinding tools, gas lights, etc. The room has been greatly improved. A stairway leading to the room above has been built by the students, and thus access to a very convenient store-room for lumber and other things has been provided. Heretofore the boys of some seventh grade rooms have had no manual work. This work has been completely extended through the sixth and seventh grades, with the exception of the sixth grades in the West Natick school. As has been said, a course in manual work is being formulated and extended to the beginning grades. Natick has enjoyed the services of two exceptional men in this department during the past two years, and I cannot commend too highly their work in formulating and establishing the course. Our building is old, inadequate, and in bad condition, and with antiquated sanitary arrangements. Very extensive expenditures on this building are inadvisable, and we look forward with eagerness to the time when these departments may be installed in our new high school building.

SCHOOL ATHLETICS

We have encouraged attention to athletic sports in all grades of the schools. It is beneficial in itself and helps solve the problem of retaining a boy's interest in his school. It is individual benefit for the great mass of the pupils that we strive for, not the triumph of picked teams over those of rival schools; yet we feel great pride in the record of Natick teams even in this respect

during the past year. The town should appropriate sufficient money at once to place the Coolidge playgrounds in first-class condition.

SCHOOL GARDENS

This is a most laudable feature of school work. We feel the greater gratification over the success of this work because it was organized and carried on successfully without the assistance of the school department. The work conducted in this way brings in intimate touch with the schools people and interests outside the schools. The tendency of our schools is to become too much isolated and under the management of experts. People are apt to lose interest. If our school gardening had no other result than to bring a body of worthy people in intimate relation with school work, it would be justified. Of course the direct results of the school gardens for the pupils are great and unquestioned, and we earnestly hope the work will be conducted as heretofore.

IMPROVEMENTS AND REPAIRS

The South Natick building needs repainting inside and out. Our high school building will need some alteration to accommodate the increased enrollment for next year. The Harvard school needs a new roof and improved drainage of the grounds, as the cellar is frequently flooded with water. A system of telephones connecting the superintendent's office and various buildings with the town system, should be installed.

We find the work of education constantly widening and deepening. New phases of child life are constantly being brought within its scope. As our schools increase in efficiency the percentage of pupils enrolled in the higher grades constantly increase. Our high school numbers 309, our ninth grade 127, our present

eighth grade numbers 156. The first grade numbers but 181, showing an apparent loss of only 25 pupils from the first grade to the eighth. This is a great tribute to the efficiency and popularity of our schools. It, however, entails additional expense. Text-books and supplies cost many times as much in the upper as in the lower. Two new teachers have been required in the high school to handle the increased enrollment. Caring for this increased enrollment, with a small advance in salary of some of our older high school teachers, has been the cause for any increase in expenditures estimated for next year.

Education, however, is comparatively inexpensive in Natick. Caring for our fifty-five seniors in the high school would cost more than the entire expense of the high school, if their tuition and expenses had to be paid in a private school. We feel that our schools are developing good citizens for the future. So long as they do that under proper and happy conditions for our children, every worthy citizen will most cordially support the public schools.

I append here the report of the high school principal, and the principal of the evening school. They are interesting, and merit most careful consideration.

JOHN D. BROOKS,
Superintendent Schools for Natick.

NATICK, MASS., Jan. 1911.

MR. JOHN D. BROOKS,

Superintendent of Schools.

I herewith submit the annual report of the high school.

In the class of 1910 the students in the following list were graduated:—

Name	Present Occupation
Mary Louise Adams.....	Clerk
Hattie Frances Babcock.....	Framingham Normal
Joseph Edward Barnicle.....	Commercial School
Hazel Edna Blaisdell.....	Simmons College
Isabel Stafford Brennan.....	Sargent School
Alice Frances Buckley.....	Framingham Normal
James Patrick Butler.....	Machine shop
Alice Frances Fair.....	At home
Helena Gertrude Fair.....	Clerk
Margherita Mae Felch.....	At home
Evangeline Ruth Gavin.....	Framingham Normal
Mary Celia Goddard.....	Post Graduate
Harold Leroy Gurney.....	Y. M. C. A. School
Grace Genevieve Hedge.....	Commercial School
Ruth Barber Klein.....	Simmons College
Kathleen Millicent Leavitt.....	Stenographer
Francis Melrose Mahard.....	Norwich University
Edward William Mahan.....	Phillips Academy, Andover
Raymond Arthur McCarthy.....	Machine shop
Thomas Patrick McGee.....	Post Graduate
Alice Florence McGrath.....	Commercial School

The class of 1910 presented to the school a bronze tablet containing Lincoln's Gettysburg address.

During the summer Mr. Horace W. Rice was called to another field of labor. He left the school in excellent condition in every department.

The total number enrolled for the year of 1910-1911 is 320, divided as follows: 3 Post Graduates; 56 in the Senior Class; 59 in the Junior Class; 76 in the Sophomore Class; 126 in the Freshman Class. Of this number but 13 have left, making the present membership 307.

To accommodate the large increase of membership, the small store-room on the third floor has been fitted up as a class-room, and an extra teacher provided. Allowing for a reasonable falling off during the summer vacation, and for those who will be graduated in June, we may expect at least forty students next fall for whom we shall have no room, unless the large drawing-room on the third floor is fitted up with desks, and an additional teacher provided. In order to handle this increase, it will also be necessary to provide an entrance from the rear stairway to the basement. While the school will be much overcrowded, a compara-

tively small sum spent in rearranging the coat-rooms in the basement, the seatings, and the exits, will do much to relieve the congestion.

During the year, 70 new desks have been placed in rooms 4 and 7, five new typewriters have been purchased, sanitary drinking fountains have been installed, and some much-needed books have been provided. The commercial room has been rearranged and the book shelves removed to the office.

At the request of several parents, an afternoon study hour has been instituted, each teacher volunteering to be at the school at least two afternoons each week. This study hour continues for an hour and a half, and has yielded excellent results.

For the teachers, I have only words of commendation. They have shown themselves to be intensely interested in their work, and always loyal to the administration.

The spirit of the school is good. The pupils have the appearance of being well cared for at home, and they are uniformly courteous in bearing. Our greatest need now is for closer relation with the homes of the pupils. A number of parents have called at the school, but we should be glad to welcome many more. We hold ourselves ready to meet the parents at any time during the day or evening.

Our lack of facilities for physical culture has been partly supplied through the kindness of Mrs. R. G. Shaw, in allowing us to use the gymnasium at South Natick for three afternoons each week. Athletics have been encouraged, and the boys have established a reputation for clean, hard, gentlemanly playing.

I expect to present in the near future several recommendations for changes in the courses, which will tend to bring the commercial and manual training courses up to the standard of the classical courses. I shall also suggest that the drawing and

singing supervisors be allowed to give more time to the high school, so that the work in those departments may be made more efficient.

Our most pressing needs at the present time are for a telephone, new desks in rooms 6 and 8, and a coat-room for the boys. With these needs, and those mentioned above, supplied, we shall be using the building to its full capacity.

In closing, I wish to thank the superintendent and the school committee for their hearty co-operation.

Respectfully submitted,

EDWIN A. SHAW,
Head Master.

EVENING SCHOOL

MR. JOHN D. BROOKS, *Superintendent of Schools.*

DEAR SIR:—

The evening schools opened Oct. 17, 1910, and closed on the forty-second night of the session, Jan. 27, 1911.

The teachers were Miss Nellie C. Norris, Miss Josephine B. Gilson, Miss Beda E. Peterson, Mr. Thomas H. Kenworthy, and Mr. A. W. Smith.

Mr. Kenworthy had charge of the business department, Miss Peterson of the grade work of the non-illiterates, Miss Norris and Miss Gilson of the illiterates; Mr. Smith had classes in arithmetic and advanced grammar.

The new system of penmanship introduced brought out an interest and a degree of excellence that we very gratifying.

As activity and regular attendance lead to interest and progress, so those who regularly attended and took an active

part in the classes seemed to profit the most. Many took occasion at the close of the session to express to the principal their satisfaction with the value of the school to them personally this season.

The low per cent of attendance is largely due to illiterates over eighteen years of age, who were present just often enough to keep their membership.

STATISTICS

Ten Italians, twenty-two Greeks, fifty-four Albanians, and people of eight other nationalities were enrolled.

REPORT EVENING SCHOOL

Non-illiterates		56

Average age adult illiterates, 24 years.

Largest attendance, 101, Oct. 24, 1910.

Smallest attendance, 37, Jan. 16, 1911.

Respectfully submitted,

ARTHUR W. SMITH,

Principal.

EVENING INDUSTRIAL SCHOOL

The interest in the evening school was even better sustained than last year. The principal's report is included in this one. The trouble in attendance is with the non-English speaking students above the age of eighteen. They enroll, but no compulsion can be exerted, and they attend very irregularly. The Evening Industrial School is an exceedingly popular and useful feature of our school work. The return from the state by special appropriation as its share for maintaining the work, amounting to \$262.61, has made the work comparatively inexpensive for the town. The work should be continued. This work, if maintained, in view of the interest manifested by the State authorities in this phase of school work, may become the nucleus for a much larger development.

MEDICAL INSPECTION

The school physicians have cheerfully performed all duties that they have been called upon to perform. Their service has become a necessary adjunct of our school system. I feel, however, that our present arrangement is not the most satisfactory one. If we had one physician and a school nurse, I feel, that through the nurse's work in visiting the schools and homes of the children, we could have much closer and more helpful supervision than at present. The Leonard Morse Hospital has become apparently an object for annual appropriation by the town. One condition that might be imposed in return for them is that a nurse should be maintained whose services could be given the hospital in any time of emergency, but who should be charged with the especial duty of visiting and inspecting the schools at regular intervals. Her work under the advice and direction of the school physician would solve the situation satisfactorily.

REPORT OF TRUANT OFFICER

MR. JOHN D. BROOKS, *Superintendent of Schools*: —

I herewith submit my seventh annual report as Truant Officer from Feb. 1, 1910, to Jan. 31, 1911. The whole number of cases reported and investigated are 301, viz:—

Wilson school	197
Oak Grove school	34
Nathan Rice school	36
Felchville school	9
Bacon school	
Harvard school	4
Eliot school	4
Evening school	10
	<hr style="width: 10%; margin-left: auto; margin-right: 0;"/> 301

Of this number 54 were truancy cases. I also visited the factories and found 28 illiterate minors employed.

Respectfully submitted,

JAMES FITZPATRICK,

Truant Officer.

THIRTY - SEVENTH
ANNUAL REPORT

OF THE

Board of Water Commissioners

AND

Superintendent of Water Works

OF THE

TOWN OF NATICK

FOR YEAR ENDING JANUARY 31, 1911

NATICK, MASS.
REVIEW PRINTING COMPANY
1911

BOARD OF WATER COMMISSIONERS

HENRY G. FISKE, *Chairman* HENRY M. ROBBINS, *Clerk*

MICHAEL J. DOHERTY

GEORGE W. TRAVIS, *Superintendent*

JOHN G. MANUEL, *Assistant Superintendent*

JOHN KEAYS, *Engineer* EUGENE J. DOHERTY, *Fireman*

WATER COMMISSIONER'S REPORT

To the Citizens of the Town of Natick: —

Your commissioners herewith submit the thirty-seventh annual report for the year ending Jan. 31, 1911.

The board organized with Henry G. Fiske, Chairman, and Henry M. Robbins, Clerk.

We have granted every request for the extension of mains the past year where it was possible to do so, and are satisfied that they will be paying investments for the town in the years to come.

We also believe that it should be the policy of the town and the department, to extend the water mains over the rest of our town as fast as they are asked for, as there is a very small portion that is not provided with water at the present time.

On August 1 Mr. Harry F. Gibbs resigned as chief engineer, after a faithful service of nearly twenty-five years, to take effect Oct. 1, 1910, on account of advancing age and disability. Mr. Thomas I. Adams was unanimously appointed to fill the vacancy of chief engineer. Mr. Eugene J. Doherty was appointed fireman.

On Sept. 1, 1910, we received a communication from Mr. Adams declining to accept the appointment, and Mr. John Keys of Reading was appointed to fill the vacancy. We feel

that we have acted for the best interests of the town and taxpayers in making these appointments as we are very well pleased with the showing made by our new men up to the present time.

For further information relating to the receipts and expenditures we refer to the detailed report of the superintendent.

Respectfully submitted,

HENRY G. FISKE,
HENRY M. ROBBINS,
MICHAEL J. DOHERTY.

SUPERINTENDENT'S REPORT

To the Board of Commissioners,

GENTLEMEN:—

I herewith submit the thirty-seventh annual report of the superintendent of the Natick Water Department for the year ending Jan. 31, 1911.

The works as a whole are in good condition, but there are a few repairs that should be made the coming year.

Our supply has again proved itself capable of furnishing us with plenty of good water, although the past season was an extra dry one.

It would be appreciated by the department and the superintendent, if all persons using meters would take the trouble to read them at least once a month. By so doing an excessive bill often caused by leaky fixtures might be avoided.

Those taking water by schedule rates should report any leak promptly to the office of the department, thereby saving the town and the department a loss.

SUMMARY OF RECEIPTS AND EXPENDITURES FROM FEB. 1, 1910, to FEB. 1. 1911

RECEIPTS

Schedule water rates	\$7,086.37
Semi-annual meter rates	9,923.21
Quarterly meter rates	6,191.63

Service pipes and repairs	\$2,100.44
Payments on meters	700.68
Summons, sealings and shutting offs	75.50
	<hr/>
	\$26,077.83

EXPENDITURES

Street mains, gates and hydrants	\$3,496.79
Service pipes and meters	4,227.96
General repairs on mains, gates and hydrants	1,438.32
Running expenses outside pumping station	4,076.58
Running expenses at pumping station	3,561.83
Interest on bonds and notes	5,499.00
	<hr/>
	\$22,299.93

COST OF CONSTRUCTION

To Feb. 1, 1910	\$463,420.90
Street mains, gates and hydrants to Feb. 1, 1911	3,496.79
Service pipes, repairs and meters	4,227.96
	<hr/>
	\$471,145.65
Less cash received for services, repairs and meters	2,801.12
	<hr/>
Cost of works to Feb. 1, 1911	\$468,344.53

BILLS RECEIVABLE FEB. 1, 1911

Schedule water bills	\$2,643.12
Semi-annual meter bills	2,902.06
Quarterly meter bills	642.30
Service pipes and labor bills	1,107.40
Payments on meters	141.58
Summons	71.80
	<hr/>
	\$7,508.26

BONDS AND NOTES AGAINST WATER DEPARTMENT

SUMMARY OF STATISTICS

For the year ending Jan. 31, 1911

In form recommended by the New England Water Works Association.

WATER WORKS

NATICK, MIDDLESEX COUNTY, MASS.

GENERAL STATISTICS

Population by Census of 1911, 9,609.

Date of construction, 1874.

By whom owned, Town of Natick.

Source of supply, Covered Well.

Mode of supply (whether gravity or pumping), Pumping.

PUMPING STATISTICS

1. Builders of Pumping Machinery, Barr Pumping Eng. Co. and Blake Co.
2. Description of fuel used, (a) Kind, Georgia Greek; (b) Brand of coal, Bituminous and Anthracite; (c) Average price of coal per gross ton, delivered, \$4.20 and \$2.75; (d) Percentage of ash, —; (e) Wood, price per cord, \$4.00.
3. Coal consumed for the year, 541,530 lbs. Of this 74,945 lbs. for heating station.

4. [Pounds of wood consumed] $\div 3$ = equivalent amount of coal, 150 lbs.
5. Total equivalent coal consumed for the year = (3) + (4), 541,680 lbs.
6. Total pumpage for the year, 205,992,180.14 gallons, without allowance for slip.
7. Average static head against which pumps work, 178 feet.
8. Average dynamic head against which pumps work, 193 feet.
9. Number of gallons pumped per pound of equivalent coal (5), 567.2.
10. Duty = $\frac{\text{gallons pumped (6)} \times 8.34 \text{ (lbs.)} \times 100 \times \text{dynamic head (8)}}{\text{Total fuel consumed (5)}} = 73,704,981.$

Cost of pumping, figured on pumping station expenses, viz.:
\$3,561.28.

11. Per million gallons pumped, \$17.28+.

RECEIPTS

Balance brought forward:—

(a) From ordinary (maintenance) receipts	\$2,876.62
(b) From extraordinary receipts (bonds, etc.)	3,000.00
	<hr/>
Total	\$5,876.62
